

COLLEGE ALGEBRA

Jay Abramson
Arizona State University

College Algebra

OpenStax

This text is disseminated via the Open Education Resource (OER) LibreTexts Project (<https://LibreTexts.org>) and like the thousands of other texts available within this powerful platform, it is freely available for reading, printing, and "consuming."

The LibreTexts mission is to bring together students, faculty, and scholars in a collaborative effort to provide an accessible, and comprehensive platform that empowers our community to develop, curate, adapt, and adopt openly licensed resources and technologies; through these efforts we can reduce the financial burden born from traditional educational resource costs, ensuring education is more accessible for students and communities worldwide.

Most, but not all, pages in the library have licenses that may allow individuals to make changes, save, and print this book. Carefully consult the applicable license(s) before pursuing such effects. Instructors can adopt existing LibreTexts texts or Remix them to quickly build course-specific resources to meet the needs of their students. Unlike traditional textbooks, LibreTexts' web based origins allow powerful integration of advanced features and new technologies to support learning.

LibreTexts is the adaptable, user-friendly non-profit open education resource platform that educators trust for creating, customizing, and sharing accessible, interactive textbooks, adaptive homework, and ancillary materials. We collaborate with individuals and organizations to champion open education initiatives, support institutional publishing programs, drive curriculum development projects, and more.

The LibreTexts libraries are Powered by [NICE CXone Expert](#) and was supported by the Department of Education Open Textbook Pilot Project, the California Education Learning Lab, the UC Davis Office of the Provost, the UC Davis Library, the California State University Affordable Learning Solutions Program, and Merlot. This material is based upon work supported by the National Science Foundation under Grant No. 1246120, 1525057, and 1413739.

Any opinions, findings, and conclusions or recommendations expressed in this material are those of the author(s) and do not necessarily reflect the views of the National Science Foundation nor the US Department of Education.

Have questions or comments? For information about adoptions or adaptations contact info@LibreTexts.org or visit our main website at <https://LibreTexts.org>.

The LibreTexts name, logo, and book covers are trademarked by LibreTexts, Inc. (a 501(c)(3) not-for-profit organization) and protected against unauthorized use.

TABLE OF CONTENTS

Licensing

1: Prerequisites

- 1.1: Prelude to Prerequisites
- 1.2: Real Numbers - Algebra Essentials
- 1.3: Exponents and Scientific Notation
- 1.4: Radicals and Rational Expressions
- 1.5: Polynomials
- 1.6: Factoring Polynomials
- 1.7: Rational Expressions

2: Equations and Inequalities

- 2.1: Prelude to Equations and Inequalities
- 2.2: The Rectangular Coordinate Systems and Graphs
- 2.3: Linear Equations in One Variable
- 2.4: Models and Applications
- 2.5: Complex Numbers
- 2.6: Quadratic Equations
- 2.7: Other Types of Equations
- 2.8: Linear Inequalities and Absolute Value Inequalities

3: Functions

- 3.1: Prelude to Functions
- 3.2: Functions and Function Notation
- 3.3: Domain and Range
- 3.4: Rates of Change and Behavior of Graphs
- 3.5: Composition of Functions
- 3.6: Transformation of Functions
- 3.7: Absolute Value Functions
- 3.8: Inverse Functions

4: Linear Functions

- 4.1: Introduction to Linear Functions
- 4.2: Linear Functions
- 4.3: Modeling with Linear Functions
- 4.4: Fitting Linear Models to Data

5: Polynomial and Rational Functions

- 5.1: Prelude to Polynomial and Rational Functions
- 5.2: Quadratic Functions
- 5.3: Power Functions and Polynomial Functions
- 5.4: Graphs of Polynomial Functions
- 5.5: Dividing Polynomials
- 5.6: Zeros of Polynomial Functions
- 5.7: Rational Functions
- 5.8: Inverses and Radical Functions

- [5.9: Modeling Using Variation](#)

6: Exponential and Logarithmic Functions

- [6.1: Prelude to Exponential and Logarithmic Functions](#)
- [6.2: Exponential Functions](#)
- [6.3: Graphs of Exponential Functions](#)
- [6.4: Logarithmic Functions](#)
- [6.5: Graphs of Logarithmic Functions](#)
- [6.6: Logarithmic Properties](#)
- [6.7: Exponential and Logarithmic Equations](#)
- [6.8: Exponential and Logarithmic Models](#)
- [6.9: Fitting Exponential Models to Data](#)

7: Systems of Equations and Inequalities

- [7.1: Prelude to Systems of Equations and Inequalities](#)
- [7.2: Systems of Linear Equations - Two Variables](#)
- [7.3: Systems of Linear Equations with Three Variables](#)
- [7.4: Systems of Nonlinear Equations and Inequalities - Two Variables](#)
- [7.5: Partial Fractions](#)
- [7.6: Matrices and Matrix Operations](#)
- [7.7: Solving Systems with Gaussian Elimination](#)
- [7.8: Solving Systems with Inverses](#)
- [7.9: Solving Systems with Cramer's Rule](#)
- [Index](#)

8: Analytic Geometry

- [8.1: Prelude to Analytic Geometry](#)
- [8.2: The Ellipse](#)
- [8.3: The Hyperbola](#)
- [8.4: The Parabola](#)
- [8.5: Rotation of Axes](#)
- [8.6: Conic Sections in Polar Coordinates](#)

9: Sequences, Probability, and Counting Theory

- [9.1: Prelude to Sequences, Probability and Counting Theory](#)
- [9.2: Sequences and Their Notations](#)
- [9.3: Arithmetic Sequences](#)
- [9.4: Geometric Sequences](#)
- [9.5: Series and Their Notations](#)
- [9.6: Counting Principles](#)
- [9.7: Binomial Theorem](#)
- [9.8: Probability](#)

[Index](#)

[Glossary](#)
