Vocabulary Introduction

Exercise 1 Prior Knowledge

Look at the words in bold in Exercise 2 without reading the example sentences. Rate your current knowledge of the word before doing the unit exercises. Use the numbered scale and write the number in front of the sentences in Exercise 2. With each exercise and by the end of the unit, your knowledge should work toward a "4", which means you will know the word, can explain it and give an example. It is expected that you will mark many words with a "1" or "2" now since they might be completely new words.

Video Assignment

Exercise 3

Watch and discuss the video *From the Ashes* below. Then, practice your re-writing skills. Use your own words to tell an idea from a source.

Pre-video questions:

Answer the following questions based on your experience and current knowledge. Respond to two classmates sharing how your experiences are similar, what you learned from their experiences, or how your view might be different from theirs.

1. Where are some places you have worked? What were the conditions of those workplaces? Have you ever had a dangerous job?
2. What do consider to be the qualities of a good job? What are your ideal working conditions?
3. Can you think of poor conditions at a job? Do you know of employees that are treated badly? Describe how employees might be treated poorly and the poor conditions of some workplaces.
4. Have you heard of the expression “strength in numbers”? What do you think this phrase means?

Video

2011 News: "From the Ashes: The Anniversary of the Shirtwaist Fire"

Post video Questions

1. Why do you think the doors were locked? Why might company owners want to stop a strike or stop a union from forming?
2. Why do you think the men who locked the doors were acquitted (considered not guilty of a crime)?
3. Why is this fire worth remembering? Why are the people who died considered heroes?
4. Do you think this fire changed working conditions or regulations (rules) in the future?

Re-writing Skills

What are three ways to rewrite this information from the video:

1. The Triangle Shirtwaist Factory owners were terrified that unions would come in because that would diminish their authority over the workplace.
2. The factory employed young women, some as young as 10. They were immigrants who would work hard to create as much product as possible at the lowest possible price.
3. "They wouldn't let you stop working, not for a drink, the bathroom, nothing."
4. The machine operators were charged for any mistake they made and they were checked for cloth and threads before leaving the building.
5. To ensure that no employee slipped out without being inspected, one of the exit doors was locked.

Reading

"The Triangle Shirtwaist Factory Fire" by Mike Kubic

The Triangle Shirtwaist Factory fire of March 25, 1911, was the deadliest industrial disaster in U.S. history. The fatal event resulted in numerous factory workers' deaths and stunned the public. Mike Kubic, a former correspondent of *Newsweek* magazine, discusses the mistakes that led to this deadly disaster, as well as the drive for safer working conditions that followed.

As you read, take notes on what led to the death of so many people in the Triangle Shirtwaist Factory fire, and the impact that this tragedy had on people. Also, be ready to answer the questions based on this reading.

¹On the morning of March 25, 1911, New York social workers and politicians could look forward to their usual objective: helping to absorb the masses of destitute Europeans who were pouring into the city at the rate of 18,000 per month.

²The newcomers were part of one of America's biggest waves of immigrants: most of them were Jews fleeing deadly pogroms in Poland and Russia, and Italians escaping the hunger and poverty caused by poor harvests and lame economy. They arrived with little more than the clothes on their backs, and they headed straight from the pier for the teeming Lower East Side borough of Manhattan, which was then known as the gate to the New World.

³Just finding a place to sleep for these multitudes in the city's 100,000 cheap-rent tenement buildings was a big challenge. One-third of them were so run-down they had no lights in the hallways, and 200,000 of their rooms had no windows. A quarter of the families in the Lower East Side lived five or more to a room, and they frequently slept in shifts.

⁴But by the end of the day, the best of the New York do-gooders and political bosses took on a new, even more difficult mission: they set out to initiate progressive laws and reforms that eventually changed the safety and quality of life and work in America.

The Fire

⁵The event that inspired their bold agenda started that day at 4:35 p.m. in a Lower East Side clothing factory of the Triangle Shirtwaist Company. Someone tossed a burning match or cigarette into a big pile of scrapped cuttings, and the highly flammable material burst into a furious fire. It took less than 30 minutes for the inferno to devour the three top floors of a ten-story building filled with 500 garment workers, almost all of them recent immigrants.

⁶The fire was New York's deadliest industrial disaster ever: it caused the deaths of 146 seamstresses and other workers—123 women and 23 men, at least two of whom were 14 year-old girls working 72 hours a week for less than a dollar a day.

⁷The heart-rending tragedy was movingly described in *Forverts*, a Yiddish-language daily newspaper whose unnamed reporter apparently had been at the scene:

⁸"The flames spread very quickly," he wrote. "A stream of fire rose up through the elevators to the uppermost floors. In the blink of an eye, fire appeared in all the windows and tongues of flame climbed higher and higher up the walls...."

⁹"The fire grew stronger, larger and more horrifying. The workers on the upper floors were already not able to bear the heat and, one after another, began jumping from the eighth, ninth and 10th floors down to the sidewalk, where they died...."

¹⁰"The firefighters were helpless.... Their ladders reached only to the seventh floor [and] they stood watching as... women fell like birds shot down from the burning floors above...."

¹¹"On the eighth floor, a couple appeared in the window—a young man and woman. He held her tightly by the hand. Behind them, red flames were visible. The young man pulled the woman tenderly to his breast, kissing her on the lips, and then he let her go. She sprang off and landed heavily on the sidewalk. He leapt down and fell hard next to her, dead...."

¹²"They transported the dead to the station houses and the wounded to the hospitals. But there were not enough ambulances and patrol wagons to do the job, so the neighborhood grocers, butchers and peddlers lent their trucks and pushcarts...."

Demand for Change

¹³The next day, the public's horror over the devastating incident was joined by anger over what caused it. The first blunder, the newspapers pointed out, was the order of Max Blanck and Isaac Harris, the wealthy owners of the Triangle Company, that the factory's doors and exits must be locked during the work hours.

¹⁴The then common rule was meant to keep the workers from taking unauthorized breaks, but this time, it had terrible consequences: some of the foremen with the keys were among the fire's first victims, and they and the workers in their departments

remained trapped behind the locked doors.

¹⁵Second, many of the employees who did get out in the hallway still could not escape because the stairwells were on fire, and the poorly maintained elevators were either too slow or crashed.

¹⁶The public was shocked also by the short ladders, leaking water hoses, and other abysmally inadequate equipment of the firefighters, who didn't even have an axe with which to force open the doors and exits.

¹⁷And in the following days as the newspapers' coverage shifted from the fire to the deplorable pay, working conditions, and living quarters of the immigrants, New Yorkers began losing their indifference to the fate of the newcomers. A subsequent sentence of Blanck and Harris to a scandalous \$20 fine (equivalent to about \$500 in today's economy) completed the change of the political atmosphere. The indignant public demanded a dramatic change, and New York politicians showed they had listened to the vox populi.

¹⁸According to David von Drehle's prize-winning book *Triangle—the Fire That Changed America*, the most effective response to the post-fire disclosures came from two young members of the Tammany Hall, a Democratic Party organization that traditionally dominated the New York City and State politics.

¹⁹One of them was Alfred (Al) E. Smith, a Catholic grade-school dropout and a witty and irresistible charmer who, von Drehle wrote, “mastered the circular, windy language of the bill-drafting priesthood,” knew “as well as anyone in Albany (New York's State capital) whose bread was buttered where,” and was notorious for his skill in putting this information to use.

²⁰The other legal whiz was Robert (Bob) F. Wagner, an energetic and forceful pol known for his ability to ram new laws through a reluctant legislature. Both he and Smith were sons of immigrants and political prodigies: Wagner was 33 years old when he became the youngest leader of the New York State Senate, and Smith was elected the body's majority leader at the age of 38.

²¹Adding to their effectiveness as reformers was an informal alliance they formed with 30-year-old Frances Perkins, a Boston-educated member of an old Maine family and a prominent social worker who shared with the “Tammany Twins” a deep sympathy for the workers and immigrants.

The Work of the Three Reformers

²²Before the fire, Perkins was already fighting for workers' rights and a 54-hour work week as the executive secretary of Consumers' League, a nonprofit advocacy group. Her big contribution to the Tammany reforms was to make herself an expert on workplace safety, and to support Wagner's and Smith's most important accomplishment, which was the creation of the Factory Investigating Commission.

²³Chaired by Wagner and co-chaired by Smith, the group was charged by the New York State legislature to “investigate factory conditions in [NYC] and other cities and to report remedial measures [necessary] to prevent hazard or loss of life among employees through fire, unsanitary conditions, and occupational diseases.”

²⁴According to von Drehle, the “Tammany Twins” then “set a blistering pace” that averaged nearly one public hearing a week, interviewing more than 220 witnesses and producing nearly 3,500 pages of testimony.

²⁵The Commission hired field agents to do on-site inspections of factories, first in the state's nine largest cities and, in the next year, an additional 36 communities with industrial plants. They started by checking on fire safety and moved on to broader issues of the risks of injury in the factory environment.

²⁶In 1913, Wagner and Smith pushed 25 bills through the New York legislature, a record that according to von Drehle's *Triangle* was “unmatched at that time in American history.”

²⁷The laws were designed to correct every deficiency revealed in the Lower East Side fire: for example, it required automatic sprinklers in high-rise buildings. Fire drills became mandatory in large shops. Factory doors had to be unlocked and had to swing outward.

²⁸Other reforms mandated better building access and exits, the use of fireproofing materials, the availability of fire extinguishers, and the installation of alarm systems. Going beyond safety measures, the reform provided for better eating and toilet facilities for workers, and limited the number of hours that women and children could work. To enforce the new laws, the Factory Commission instituted a complete reorganization of the state's Department of Labor.

²⁹The legislative surge made New York one of America's most progressive states and gave Wagner, Smith and Perkins a nationwide reputation as allies of the working class. Thanks to their work, the trio left behind one legacy of particularly

incalculable value: today's risk of death in an American work place is one one-thirtieth (1/130th) of what it was before the Triangle factory fire.

Writing Skills

The Basics of Paragraphs

In academic writing, a paragraph is a group of sentences about a single topic. Paragraphs can be different lengths depending on the writing situation.

A good paragraph has three parts:

1. a topic sentence that states what you will write about
2. supporting sentences (the body) that add explanations and details about the topic
3. a conclusion sentence that wraps up the paragraph, similar to the topic sentence

A paragraph is indented. Each sentence comes right after the other one, not on a new line. Each sentence ends with a period.

Exercise 8 Example Paragraph

Read the example paragraph below and answer the questions that follow.

Diablo Valley College is the right place for me to take classes and improve my English skills. One reason is that the tuition is very low. I can take credit college classes at Diablo Valley College for less than half of the cost of a university class, or I can take non-credit classes for free. Another reason is Diablo Valley College has great teachers and student support. My teachers care about their students. There are student centers where I can do my homework and get free tutoring. Finally, Diablo Valley College is close to my house. I live only five miles away, so I can ride the bus there in less than 20 minutes. I also ride my bike in nice weather. For all of these reasons, I am attending Diablo Valley College for my education.

1. What is the topic sentence. What is this paragraph about?
 2. How many reasons are given in the body of the paragraph?
 3. What are they? Write a word or phrase for each reason.
- 1.

- 2.
- 3.
4. What is the concluding sentence?
5. How many sentences are there in this paragraph? Is this a short or long paragraph for college writing?

Topic Sentences

The topic sentence is usually the first sentence of a paragraph. A topic sentence should contain a topic and a controlling idea. Some topic sentences also make the plan of the paragraph clear. For example, the topic sentence might have a plan like, “for many reasons,” “several qualities,” “three things,” or “a few differences.” A good topic sentence is not too general and not too specific. It shows the reader what will come in the paragraph.

A good topic sentence does NOT:

- Announce the topic. WRONG: “I am going to write about Diablo Valley College.”
- Ask a question. WRONG: “Why am I going to Diablo Valley College? I’d like to tell you.”
- Stand above the paragraph. It is NOT a title. It is a complete sentence. WRONG: All about DVC.
- State a fact. WRONG: “DVC is located in Pleasant Hill, California.”

Exercise 9

Read the following topic sentences about American cities. Do they contain both the topic and a controlling idea? Circle the topic and underline the controlling idea.

1. Washington, DC, is the capital of my country.
2. New Orleans is a very interesting city.
3. There are many people in Los Angeles.
4. St. Augustine is a very beautiful city.
5. New York is the biggest city in the U.S.

Improve the topic sentences from the exercise above by adding controlling ideas.

- 1.
- 2.
- 3.
- 4.
- 5.

Exercise 10

Read the following paragraphs. Create a good topic sentence for each paragraph.

Paragraph 1: Good Neighbors

Topic Sentence:

First, a good neighbor is quiet. Even if a neighbor is nice, it is hard to tolerate loud music late at night or dogs that bark a lot. Second, good neighbors are respectful. It is nice to have polite conversation with your neighbor. Neighbors should also respect others by shoveling their sidewalk in the winter and leaving enough parking space for everyone. Finally, a really good neighbor is generous. A good neighbor might bring you cookies during the holiday, or give you some gas if your lawn mower runs out. These are some of the most important qualities of a good neighbor.

Paragraph 2: Reducing Stress

Topic Sentence:

One way to reduce stress is to exercise. Some people jog or play high-impact sports to relax. Others just take a walk or a short bike ride. Another idea is talking to a friend or family member. It helps just to express how you are feeling when you are stressed. Lastly, listening to music can help you relax. Quiet, classical music relaxes some people. Listening to loud pop music while singing and dancing also releases stress. We all have stress, and these are three ways to reduce it.

Paragraph 3: My Worst Job

Topic Sentence:

I earned a lot of money from that job, but I was more miserable than I have ever been in my life. Working on an assembly line was very boring, and I had to concentrate the whole time with almost no breaks. All day long, I had to put DVDs into boxes, and I had to work very fast. The factory was hot and stuffy. Also, the supervisors watched us closely and yelled us when we weren't working fast enough. Maybe the worst part of the job was the mood of my coworkers. It seemed like they all complained and gossiped. I didn't make a single friend in the eight months that I worked there. In sum, working in a factory was truly one of the worst experiences that I have ever had.

Titles versus Topic Sentences

If your instructor asks you to write a title for your paragraph, there are rules that you should follow:

1. Use capital letters for the important words and the first word of the title. Don't use capital letters for prepositions (of, for), conjunctions (and, or), or articles (the, a, an).
2. Don't write a sentence. Don't end it with a period.
3. Write something short that gives the topic of your paragraph. Look back at the titles in the sample paragraphs of this chapter. Do they all follow the rules for title writing?

Exercise 11 What is the difference between a title and a topic sentence?

1. Location:

A title's location:

A topic sentence's location:

2. Capital Letters:

In a title, capitalized words:

In a topic sentence, capitalized words:

3. Grammar:

A title is NOT:

It doesn't end with:

A topic sentence is:

It ends with:

4. A title is only required for formal compositions, usually written over a long time. A topic sentence is ALWAYS needed in a paragraph.

Read the following titles. What is wrong with each one? Write a few words to explain. One title is acceptable.

I want to visit Uzbekistan.

My Paragraph

Uzbekistan and Its Wonders

Exercise 12 Topic Sentence Practice

Choose the most effective topic sentence from the following sentence pairs.

1. a. This paper will discuss the likelihood of the Democrats winning the next election.
b. To boost their chances of winning the next election, the Democrats need to listen to public opinion.
2. a. The unrealistic demands of union workers are crippling the economy for three main reasons.
b. Union workers are crippling the economy because companies are unable to remain competitive as a result of added financial pressure.
3. a. Authors are losing money as a result of technological advances.

- b. The introduction of new technology will devastate the literary world.
4. a. Rap music is produced by untalented individuals with oversized egos.
- b. This essay will consider whether talent is required in the rap music industry.

The Writing Process

Good writing doesn’t happen instantly or without some careful thought. To write with quality, good writers follow three steps of the writing process:

- 1) Pre-writing. In this step, brainstorm, choose the best ideas, and make a plan to organize the paragraph.
- 2) Rough draft. In other words, write the paragraph. Keep the ideas flowing. Try to write a good topic sentence and follow the plan from your pre-writing.
- 3) Revise and edit. Try to improve your paragraph. Make sure all of the sentences stay on topic. Check organization and work on the conclusion sentence. When you are sure the content is good, check the grammar.

Complete Sentences

A complete sentence must have these three things:

1. a subject (noun)
2. a verb (what the noun is or what the noun does)
3. a complete thought that makes sense

Sentences often have other parts, too. These can be objects, adjectives, adverbs, conjunctions, and more. These are all optional parts of a sentence and are not always needed to make a complete idea.

Subject

The **subject** of a sentence is a noun (or noun phrase) or pronoun. Usually, the noun is the person, place, or thing that does the action in the sentence:

- The **boy** crossed the street.
- My **mother** works in the city.
- **Mark** is really cool.

Verb

The verb (or verb phrase) tells what action happens or what state of being exists.

- The boy **crossed** the street.
- My mother **works** in the city.
- Robbo **plays** the drums.
- She **is** very pretty.
- Mark **plays** better than Robbo.

Watch out for: Prepositional phrases

Prepositions are words such as *in*, *at*, *on*, *of*, *after*, and *before*. They introduce other words and make a group of words into a prepositional phrase. If a prepositional phrase is not connected to a complete sentence, it is a fragment.

Fragment: *After walking over two miles. John remembered his wallet.*

Complete sentence: *After walking over two miles, John remembered his wallet.*

Complete sentence: *John remembered his wallet after walking over two miles.*

Watch out for: Dependent word makers (subordinating conjunctions)

Dependent word markers like *since*, *because*, *without*, *although*, or *unless* signal to the reader that a clause is not the main point of the sentence. A dependent clause will have a subject and verb, but it still cannot stand on its own. Like prepositional phrases, a dependent clause can be a fragment if it is not connected to an independent clause containing a main subject and verb. To fix the

problem, we can add such a fragment to the beginning or end of an independent clause. When we add the fragment to the beginning of a sentence, we follow it with a comma.

Fragment: *Because we lost power.* *The entire family overslept.*

Complete sentence: *Because we lost power, the entire family overslept.*

Complete sentence: *The entire family overslept because we lost power.*

Fragment: *He has been seeing a physical therapist.* **Since his accident.**

Complete sentence: *Since his accident, he has been seeing a physical therapist.*

Complete sentence: *He has been seeing a physical therapist since his accident.*

Watch out for: "--ing" phrases

Another common fragment pattern is a phrase that centers on **Present-participles** (such as *breaking*, *seeking*, *finding*). A verb that's in *-ing* form can act as an adjective or modifier and might not be acting as a verb in the sentence. If we use an *-ing* form we should double-check that there is a main subject and verb. The main verb itself can't be in *-ing* form, and verbs in *-ing* form also often appear without a subject.

Fragment: *Taking deep breaths.* *Saul prepared for his presentation.*

Complete sentence: *Taking deep breaths, Saul prepared for his presentation.*

Complete sentence: *Taking deep breaths helped Saul prepare for his presentation.*

Fragment: *Of course, many people welcome the warmer weather.* **Upsetting scientists who fear governments will not act until global warming becomes irreversible.**

Complete sentence: *Of course, many people welcome the warmer weather. Their attitude upsets scientists who fear governments will not act until global warming becomes irreversible.*

Complete sentence: *Of course, many people welcome the warmer weather, upsetting scientists who fear governments will not act until global warming becomes irreversible.*

Watch out for: "to ____" phrases

Another kind of phrase that commonly gets left to stand on its own is an **infinitive phrase**, or a verb paired with the word **to** such as **to run**, **to write**, or **to reach**. Like an *-ing* form, an infinitive cannot be used as the main verb.

Fragment: *We needed to make three hundred more paper cranes.* *To reach the one thousand mark.*

Complete sentence: *We needed to make three hundred more paper cranes to reach the one-thousand mark.*

Complete sentence: *We needed to make three hundred more paper cranes. The goal is to reach the one-thousand mark.*

Exercise 15 Revise and Edit

Revise and edit the first draft of your paragraph.

Use the checklist below. Improve your paragraph by making corrections, then submit it online.

- Add a title (follow the rules for titles, capitalize the main words)
- Check your topic sentence (follow the rules for topic and controlling idea)
- Check that you have complete sentences (use subjects and verbs, begin with capital letters, and end with periods)
- Read your content (all ideas must be related to the topic and flow with transitions)

Extra Credit: To earn up to 5 points of extra credit, record and submit audio or video of yourself reading your paragraph out loud. You should practice your pronunciation first and you will probably want to try reading it a few times before you are happy with your recording. If you choose this option, make sure that you also post your written paragraph so that I can see and score your writing too.

Reading Skills-Margin Notes

Interacting with a text is important. One way to interact is by taking notes in the margins. These notes, called margin notes, could be a question or phrase stating the main idea. Look at the example below from the reading. The paragraph's main idea is defining labor unions and their history, so the margin note would be something like "Definition of a labor union and its history"

Definition of a labor union and its history	A labor union is a group of workers who join together to ask their employers for better payment, working hours, and working conditions. Labor unions are very common today, and many workers in the United States are members of different kinds of unions. However, unions did not always exist. Modern labor unions didn't appear in the United States until the late 1800s.

Table 2 Margin Notes

Exercise 3

Look at the numbered items below that are main ideas of paragraphs from the reading. As you read, identify which paragraph the note belongs to and write it in the margins.

1. Effects of the Industrial Revolution
2. Coal Industry
3. Collective bargaining
4. Union benefits
5. Working with the government

Reading

Workers' Rights and the History of Labor Unions by Jessica McBirney

What is a labor union? In the past, when workers were mistreated by their employers, there was nothing they could do about it. Labor unions were the workers' solution to this problem. This article sets the scene for the dawn of labor unions, explores the history of workers' rights, and explains the strategies they still use today. **As you read this text, identify 3 strategies that union members used to seek justice and create change.**

¹Have you ever heard the phrase "There's strength in numbers"? For many years, people who worked on farms, in factories, or in other low-wage positions were sometimes forced to endure terrible conditions with little pay. But they soon found, with "strength in numbers," that they could take charge of their circumstances. That's where labor unions come in.

²A labor union is a group of workers who join together to ask their employers for better payment, working hours, and working conditions. Labor unions are very common today, and many workers in the United States are members of different kinds of unions. However, unions did not always exist. Modern labor unions didn't appear in the United States until the late 1800s.

³The United States experienced an Industrial Revolution from about 1860 until about 1920. People started to use machines and factories to make products instead of making them by hand. Factory owners became rich very quickly, but they did not treat their workers with kindness or respect. Employees had to work up to 12 hours per day for only a few dollars. They did not always get weekends off. In many industries, workers faced inhumane conditions such as having to bend over all day, or breathing in smoke from the machines.

⁴One of the worst industries to work in was the coal industry, where workers spent all day deep underground in coal mines. The mines were very dark and usually damp and cold. Workers had to breathe coal dust and poisonous gases. They had to crawl through the mine in narrow tunnels and pull carts full of coal behind them. There was always a chance that the whole mine could collapse from an explosion. Because coal miners were paid so little, many families could not afford to buy enough food. They had to send their children to work in the mines too, just so the family could have enough money to live on. Children worked six days a week just like their parents, so they could not go to school.

⁵Workers decided they could not keep living such hard lives. They knew they had to work together to negotiate with the rich and powerful factory owners, so they grouped together to form labor unions. Labor unions used 3 different strategies to protect workers:

⁶The first strategy was called “collective bargaining.” Workers chose a few leaders to represent them in a meeting with the factory or mine owner. In this meeting, everyone would agree to a new contract that gave workers shorter hours, higher pay, and safer working conditions. If the factory owner did not agree to the contract, all the workers would strike, or stop working until they got what they wanted. Many strikes occurred during the Industrial Revolution, and workers still go on strike today.

⁷The second strategy was giving benefits to union members. If any worker got hurt on the job, the union would pay for the doctor’s visit, medicine, and sometimes food.

⁸The third strategy was working with the government to pass more laws. Union leaders could make deals with politicians to pass laws that helped workers. For example, child labor became illegal and the government began to send inspectors to make sure factories were safe.

⁹Unions were very successful in making sure business owners did not take advantage of their workers. Unions still serve many of these same functions today. Workers still go on strike when their employer will not agree to a better contract, and unions still work with the government to get laws passed. Many people across the country rely on unions to keep their jobs safe and their families fed.

Vocabulary Skill

Suffix -er

When groups of letters are added to the end of a word, it is called a suffix. For example, the letter –al can be added to the word *education* to form the word *educational*. *Education* is a noun, but when the suffix –al is added, it becomes an adjective. The suffix –er can have two meanings: a person or more. For example, the word *teacher* means a person who teaches. The word *sweeter* means more sweet.

Exercise 5

Look at the words below from the reading and identify the meaning of -er as either person (P) or more (M).

- ____ 1. Worker
- ____ 2. Safer
- ____ 3. higher
- ____ 4. Miner

- ____ 6. reformer

Writing Skill

Opinion Paragraph

In American college classes, instructors will often ask you to “take a stand” or position and give reasons for your opinion. It is not important that your opinion be the same as the instructor or your classmates. A good writer will have strong, detailed, well-expressed support. With any writing assignment, you will begin brainstorming ideas, forming an outline, then writing a first draft. Look at the list below. This is an example brainstorming strategy for a writing assignment of an opinion paragraph on why people decide not to get married.

Reasons not to get married:

haven’t found the right person

other priorities

desire of freedom

The list above is not enough for an entire paragraph, so it should be expanded when put into an outline. See the outline below that was created based on the brainstorm.

Topic Sentence: Some people decide not to get married for several reasons.

Supporting Point 1: haven’t found the right person

Supporting Detail 1: Sharon's story

Supporting Point 2: other priorities like career

Supporting Detail 2: example careers that make marriage difficult

Supporting Point 3: desire freedom

Supporting Detail 3: travel, move, choices

Concluding Sentence: People might decide not to get married because of finding the right person, making career a priority, and wanting freedom.

Exercise 6 Practice Identifying Reasons

Read the following paragraph based on the outline example. Answer the questions that follow.

Some people decide not to get married for several reasons. First of all, maybe these people didn't meet the right person to marry. For example, my friend Sharon wants to marry someone who is smart, handsome, rich, and kind. She wants to wait until she falls in love with this perfect man, so she hasn't gotten married yet, and she is now 58 years old. Secondly, some people think getting married will take their focus away from their career. Some jobs require traveling or long hours at work. For instance, movie directors and journalists often have to travel for long periods of time, so marriage is difficult for those people. Finally, some people don't get married because they want total freedom. If you stay single, you can quit your job, move, date, and try many things without thinking of another person. For all of these reasons, some people decide not to get married.

1. Underline the topic sentence. Where is it located?
2. Circle the transition words. How do they help the reader identify the reasons?

Reading

Mexican Migrant Workers in the 20th Century by Jessica McBirney

The United States is a nation made up of people with many different backgrounds. Since Mexico is a neighboring country, many of these people are Mexican or Mexican-American. This informational text describes how many immigrants and Mexican-Americans worked on farms for low pay and little respect throughout the 20th century, and even today. **As you read this text, take notes on the relationship between prejudice and earning a living.**

¹Have you ever had to move to a different town before? Maybe you just moved somewhere new, or maybe you have always lived in the same place. But can you imagine having to move to a new place every few months? This is what Mexican migrant farm workers had to do in California in the 1900s. Because they worked in fields and farms, they had to move several times a year, every time there was a new crop to harvest.

Who worked in the fields?

²Many people of Mexican descent had lived in California for a long time before it first became an American state in 1850. The territory used to belong to Mexico, and many residents did not leave when the United States bought the land.

³However, even more Mexican immigrants crossed the border when Mexico experienced a revolution in 1910. The revolution put some in danger and they fled for safety. The revolution also caused an economic downturn in Mexico, and many workers realized they could earn more money in the United States than they could in their home country.

⁴Workers continued to move to California and other southwest states throughout the 1920s. The U.S. government set up a program to give immigrants short-term work visas. The program was designed for workers to come to the U.S. for a short time, just long enough to earn money to send back to their families. Most workers relied on these visas to stay in the country, but some stayed long enough to earn their citizenship and have children.

⁵When the Great Depression hit the U.S. in the 1930s, unemployment across the country rose to 25%. Many white Americans grew upset, believing that immigrants were “taking” their jobs. They blamed the Mexican workers for the fact that so many other people did not have jobs. Local and even state governments began to deport anyone who looked Mexican. Police did not bother to check if the people they removed were citizens.

Life as a migratory worker

⁶The workers who remained in the states often became migratory workers. They had to move around as different crops came into season, so they could be employed all year round. Life as a migratory worker in the 1930s was hard. Even though agriculture in California depended on migratory workers, they made the lowest wages in the country. Farm owners did not treat their laborers with respect. Most farms did not have bathroom facilities or water for the workers to drink, and there was no place to wash dangerous pesticide chemicals off their hands.

⁷Families moved too much and did not make enough money to own a house, so they usually stayed in makeshift homes right next to the fields. They built these houses out of whatever they could find, including scrap wood, cardboard, canvas, or tin cans. Although it was technically illegal, some children had to work in the fields alongside their parents for long hours. Even when children could go to school during the days, they had to change schools so often that it was very difficult to learn.

Government intervention

⁸The U.S. government started programs to help families hurt by the Great Depression, but few of these programs applied to agricultural workers. The one program that brought some assistance was the Farm Security Administration, which set up living camps and provided food and medicine to migratory workers. They separated Mexican and Mexican-American workers from whites because they did not want racial tensions to cause problems in the camps.

⁹A few Mexican workers tried to organize strikes and protests during the Depression, but they did not succeed in improving working or living conditions. After the Depression ended, life did not get much easier for the migratory laborers. However, change began when Cesar Chavez first created a union for farm workers in 1965: the National Farm Workers Association. Chavez and the NFWA wanted higher wages and better working conditions for all laborers, Mexican and white alike.

Reform at last

¹⁰One of Chavez's most famous campaigns was his strike and boycott against grape growers in California. It began in 1965 when fruit companies refused to meet the demands of their workers. The workers went on strike and would not agree to keep working until they were paid better. To raise awareness and pressure the fruit companies, Chavez organized a 300-mile march to Sacramento, the capital of California. He also encouraged consumers around the country not to buy grapes. Finally, in 1970, the grape growers agreed to give their workers better wages.

¹¹Today, Mexican immigrants or people of Mexican descent still make up a large majority of farm workers. In 2005, a survey found that 53% of these workers were undocumented workers, 21% were permanent residents, and 25% were full U.S. citizens. Most farm workers still make less than \$10,000 per year, especially since many are paid per bucket of fruit they pick, rather than per hour. Despite some improvements from the 1930s, being a farm worker is still a dangerous and difficult job. Many organizations and politicians are still working to improve the lives of migrant laborers across the country.

Text-Dependent Questions

Exercise 5

For the following questions, choose the best answer.

1. PART A: Which of the following statements best identifies a central idea of this text?

- A. America has always welcomed immigrants who built the country and made it more productive through history.
- B. During the Great Depression, jobs were scarce, but there was always a place for laborers working American soil to become wealthy and live out the American dream.

- C. Mexicans invaded America in the 1930s because there were no jobs in Mexico and they wanted to steal American wealth.

2. PART B: Which phrase from the text best supports the answer to Part A?

- A. “and many workers realized they could earn more money in the United States than they could in their home country” (Paragraph 3)
- B. “Most workers relied on these visas to stay in the country, but some stayed long enough to earn their citizenship and have children” (Paragraph 4)
- C. “they made the lowest wages in the country. Farm owners did not treat their laborers with respect” (Paragraph 6)

- C. “so they could be employed all year round” (Paragraph 6)
- D. “Even though agriculture in California depended on migratory workers,” (Paragraph 6)

Reading Skill-Pronoun Reference

A pronoun is a word that refers to a noun that usually has already been mentioned. To identify which noun the pronoun is referencing, read the two previous sentences. For example, “I went to bed late. This made me tired the next day.” The word this is referring to the action of going to bed late.

Exercise 6

Look at the sentences below from Mexican Migrant Workers in the 20th Century. Circle the pronoun and underline the part in the previous sentence to which it refers. The first has been done for you.

1. “But can you imagine having to move to a new place every few months? **This** is what Mexican migrant farm workers had to do in California in the 1900s.” (paragraph 1)
2. “Workers continued to move to California and other southwest states throughout the 1920s. The U.S. government set up a program to give immigrants short-term work visas. The program was designed for workers to come to the U.S. for a short time, just long enough to earn money to send back to their families. Most workers relied on these visas to stay in the country, but some stayed long enough to earn their citizenship and have children.” (paragraph 4)
3. “Families moved too much and did not make enough money to own a house, so they usually stayed in makeshift homes right next to the fields. They built these houses out of whatever they could find.” (paragraph 7)
4. “The workers who remained in the states often became migratory workers. They had to move around as different crops came into season.” (paragraph 6)
5. “Today, Mexican immigrants or people of Mexican descent still make up a large majority of farm workers. In 2005, a survey found that 53% of these workers were undocumented workers, 21% were permanent residents, and 25% were full U.S. citizens. Most farm workers still make less than \$10,000 per year, especially since many are paid per bucket of fruit they pick.” (paragraph 11)

Reading Skills-Compare and Contrast Connection

Exercise 7

Compare and contrast the lives of a factory worker (*The Triangle Shirtwaist Factory Fire*), a coal worker (*Workers' Rights and the History of Labor Unions*), and a migrant worker (*Mexican Migrant Workers in the 20th Century*).

Writing Skills-Compare and Contrast Organization

There are two ways to organize a compare and contrast paragraph or essay: block method or point-by-point method. You will write a paragraph about two of the workers from Table 1 (select two of the three) using the point-by-point method. Complete the outline below using the information you used from Table 1.

For example, Point of comparison 3: Work Conditions

1. Coal workers: exposed to coal dust and poisonous gases
2. Migrant workers: exposed to dangerous pesticide chemicals

Exercise 8 Writing Skills-Signal Words

Signal words help you show relationships between ideas. You could signal that you will provide another point (e.g., first, second, another, next) or connections (e.g., but, however, in contrast). Table 2 has words that signal contrast, and Table 3 has words show similarity. Although all the words in Table 2 and Table 3 share similar meanings (to compare or to contrast), they are grammatically different. Notice in Table 2 the punctuation for however, in contrast, and on the other hand. How does their punctuation differ from while, whereas, and but? All of the signal words require a complete sentence before and after the signal word, but however, in contrast, and on the other hand require a semi-colon or period before them and a comma after them. Use the ideas in your outline to complete the sentences in Table 2 and 3.

Example: Coal workers were exposed to coal dust and poisonous gases, whereas migrant workers were exposed to dangerous pesticide chemicals.

Exercise 9 Example Paragraph

Read the example paragraph below. Underline the points of comparison. Circle any signal words.

Differences in Summer and Winter

Summer and winter in California differ in weather, outdoor activities, and food. The first difference is in temperature and weather conditions. Summer brings high temperatures of over 100 degrees Fahrenheit, but winter brings cold foggy days. Another contrast between these seasons is the outdoor activities. Because summer is so hot, many people enjoy swimming. However, in winter, many people like to ski or snowboard in the Sierra Nevada mountains. Lastly, the food commonly eaten in these seasons is different. Fresh fruits, such as peaches, plums, and apricots are found in every farmer's market during summer; in contrast, soups, stews, and hot beverages are consumed in winter. California's summer and winter differ tremendously.

Exercise 11 Compare and Contrast Paragraph Draft

Use the outline from Exercise 10 to write a compare and contrast paragraph. Consider the example paragraph from Exercise 10.

Exercise 12 Paragraph Development

A well-developed paragraph has several supporting sentences that help to explain the main idea. They help to make the main idea clearer and more believable to the reader. How many supporting sentences do you need? Well, that depends on how complex your topic is. You use as many sentences as you need to explain your idea clearly and completely. For this course, it is a good idea to have at least three to four supporting sentences. However, academic paragraphs in college writing can have ten or more sentences! To develop your paragraph, supporting sentences can give the reader examples, specific details (time, date, place, number, or other

facts), a clear description, or an explanation. Look at the two example paragraphs below. Which is more developed? What strategies are used to expand the writer's main idea?

Example Paragraph 1

People who form close relationships with other people tend to be happier than those who do not. The number of friends a person has is not important. When it comes to happiness, what matters most is the quality of the relationships. Close relationships are ones that usually involve the sharing of feelings, mutual respect, acceptance, trust, fun and empathy. As long as the relationships are deep, a person will experience greater levels of happiness.

Example Paragraph 2

People who exercise regularly are usually happier than people who avoid exercising. People with good exercise routines are always improving both their physical and mental well-being. In fact, research has shown that exercise can be as effective as medication in treating depression.

The Revision Process of Writing

Exercise 13 Revise and Edit

Prompt: Write a complete paragraph that compares and contrasts the working situations of two types of workers. Use the point-by-point method.

Revise and edit the first draft of your paragraph.

Use the checklist below. Improve your paragraph by making corrections and additions.

- Expand the ideas using strategies from the paragraph-development lesson. Check that you have all the basics of an organized paragraph and have expanded your ideas.
- Check your topic sentence (follow the rules for topic and controlling idea)
- Check that pronouns are all very clear.
- Add clear signal words to connect your compare/contrast ideas.
- Check that you have complete sentences (use subjects and verbs, begin with capital letters, and end with periods)
- Read your content (all ideas must be related to the topic and flow with transitions)
- Check that your concluding sentence is strong and discusses both types of workers.

Use Grammarly to help you find and correct more errors, then submit your new final draft to this class assignment.

- - How to use [Grammarly with Chrome extension](#). I recommend the FREE version.
 - If you don't use Chrome, or you usually type on your computer (not online), see the [Grammarly webpage](#). Paste your text into the box or see more options under "Get Grammarly" at the bottom of the page.
 - Hint: Use grammar technology carefully because it will sometimes change your words and ideas (it's not always right!). Read with caution before you accept any changes; make sure the idea still means what you want it to.

Extra Credit: To earn up to 5 points of extra credit, record and submit audio or video of yourself reading your paragraph out loud. It would help if you practiced your pronunciation first and you will probably want to try reading it a few times before you are happy with your recording. If you choose this option, make sure that you also post your written paragraph so that I can see and score your writing too.

1.4: Project 1 - Growth Mindset

Introduction: A *growth mindset* can refer not only to individuals but also to organizations and larger topics.

Vocabulary hint: Used this way, an organization is any organized group of people with a particular purpose, such as a school, business, society, association, club, branch of government, etc.

Directions: With your classmates, select a topic to explain the importance of a growth mindset. Create a Padlet with at least 15 posts. Give each one a descriptive heading (a complete sentence). Then, prepare a 3-minute presentation to share and explain your favorite posts to the class!

Complete the steps of the project:

1. **Choose a topic or organization and discuss how it incorporates a growth mindset and why.** Use the questions below as a guide.
 - Are the people (employees, students, athletes, etc) happy to improve their abilities? Are they encouraged to grow and improve? Do they encourage others to persevere?
 - Are they encouraged to experiment and take risks? In what ways do they try new things and develop new skills?
 - How do they see achievement and failure? Which habits get rewarded? Which have consequences? Is it considered okay to make mistakes and learn from them?
 - What experts or spokespeople help spread a growth mindset with this topic? What motivational words do they share?
 - How can this topic or group help build more of a growth mindset within its population? What can be improved?
 2. **Share links, videos, podcasts, social media posts, quotes, news sources, and more through your Padlet page.** All posts must connect to your topic and explain something about the way people use a growth mindset within that topic.
 3. **Develop a short explanation or summary** of what you think each post should tell us. Make this the title/heading of the post. Write only complete sentences.
 4. **Design a presentation** with your group. Show your favorite posts to the class and explain each one. Organize your presentation with a main idea (thesis) about growth mindset for your topic. Each member of your group must speak during the presentation and each must share at least one post from the Padlet page. The presentation should be approximately 3-5 minutes long.
 5. Check that your Padlet page is complete and create a SECRET READER LINK to turn in your Padlet page.

For example, the verb drive is related to a vehicle; however, if you add the preposition "up" to form the phrasal verb "drive up", the meaning is to increase. For example, "The policy is driving up the price of gas." Look at the phrasal verbs found in the next reading. Match them to their meaning.

Reading

The Chicano Movement by Jessica McBirney

The Chicano Movement of the 1960s was a social movement in the United States. Activists worked to end the discrimination towards and mistreatment of Mexican-American citizens. **As you read, take notes on the causes of the Chicano Movement and**

how it affected the lives of Mexican Americans.

¹In the 1950s, the word “Chicano” was an insulting name for children of Mexican immigrant parents living in the United States. People from the U.S. used it because they did not think Chicanos were “American enough;” people from Mexico also used it because they did not believe Chicanos were “Mexican enough” anymore. After several decades of being mistreated and called names, Mexican Americans decided to embrace the term “Chicano” as a symbol of ethnic pride. The name was then given to the growing Mexican-American civil rights movement of the 1960s: the Chicano Movement.

²The Chicano Movement had many goals, some of which varied by location. Overall, the movement aimed to end discrimination and negative stereotypes against Mexican Americans, and it sought to expand workers’ rights, voting rights, educational equality, and land usage. The movement mainly took place in Southwestern states — such as Texas, New Mexico, and California — and the roots of the struggle ran deep.

Roots of the Movement

³It is possible to trace the movement all the way back to the Treaty of Guadalupe Hidalgo in 1848, which redrew the official line between Mexico and the United States. People who had considered themselves Mexican now lived on the American side, and the treaty promised they would be full U.S. citizens with full civil rights. However, for many Mexican Americans — especially those who worked in agriculture — that promise was not fulfilled. They were never treated fairly by white U.S. citizens and often, especially during times of economic hardship like the Great Depression, they were actively removed from jobs and sometimes sent “back” to Mexico — even though they had lived in the U.S. for generations. In the 1960s, inspired by the success of the African-American Civil Rights Movement in the South, Chicanos began actively fighting for equality. The Chicano Movement expanded and covered many different issues, but it mostly focused on four: land ownership, workers’ rights, and educational and political equality.

Reclaiming Land and Identity

⁴In the Treaty of Guadalupe Hidalgo in 1848, the U.S. promised to let the people who owned land in the area keep their property, but in the end they did not keep their promise. Mexican Americans in the area had their land taken away.

⁵Chicano activists worked to reclaim their lands in Southwestern states. However, they were unsuccessful, so they began promoting the idea of sacred, ancestral lands. They popularized the notion of Aztlán, an area in northern Mexico and southern United States, thought to be the origin land of the Mexican people. Even if they could not officially own the land, Chicanos saw Aztlán as a symbol of their heritage and their identity as Mexican Americans.

Farmworkers’ Rights

⁶Many Mexican Americans worked as migrant farmworkers who traveled from farm to farm harvesting different crops according to the season. Migrant farmworkers were some of the worst-treated workers in the country, and their children rarely got to stay in school for more than a few years. In the 1960s, the Chicano Movement hoped to win more protections for these migrant families.

⁷They decided to organize groups of workers that were large enough to stand up to farm owners and demand more rights. Two of the most influential reformers were Dolores Huerta and Cesar Chavez; together they founded the National Farm Workers Association (NFWA). The NFWA organized boycotts against fruit-growers who refused to give rights to their workers, and they worked with the government to give migrant workers greater legal protections. The government agreed to some of the NFWA’s demands and instituted some new laws, including higher wages and more secure employment contracts. Unions like the NFWA still fight for Mexican-American workers’ rights today.

Equality in Education

⁸A California court case in 1947 decided it was illegal to segregate schools between white children and Mexican American children, but there were still great inequalities within schools. Firstly, many Chicano children could only stay at the same school for a few months at a time because their parents were migrant farm workers. Secondly, even when they could stay, many had not grown up speaking English, and their parents still spoke little or no English, so it was hard for them to keep up in the classroom. Instead, they fell further behind; only about one quarter of Chicano students at this time graduated from high school. Thirdly, schools in poorer areas, which sometimes had a higher percentage of Chicano students, received less funding than schools in rich, whiter areas. Students began to realize how all these factors kept Mexican-American youths from achieving and left many of them having to eventually take on the same cheap labor jobs their parents had.

⁹High school and university students organized to form the group Movimiento Estudiantil Chicano de Aztlán (MEChA). They walked out of classes on school campuses and negotiated with school administrators and political leaders for education reform. They also called for more Mexican-American history to be taught in classrooms, and they wanted more Mexican-American teachers.

Political Involvement

¹⁰None of the changes they worked for were made overnight, but some change came eventually. More importantly, MEChA made many Chicanos see that they could get involved with politics and important social issues. It eventually led to the formation of the Raza Unida Party, a political party focused on the needs of Chicanos across the nation.

¹¹The Chicano Movement is less well known than the Civil Rights Movement, which happened in the South around the same time, but it was just as important in establishing civil rights for an oppressed group of people. Although the movement mainly focused on land ownership, workers' rights, and education reform, it promoted equality for Chicanos in many different ways. For example, in the early 1970s there was a whole group of women dedicated to making sure healthcare forms were available in Spanish as well as in English. The movement accomplished many of its goals over several decades, and it is still working today to promote fairer treatment of Mexican Americans in schools, jobs, and even in entertainment. Perhaps most importantly, the Chicano Movement proved to Mexican Americans that they could have just as much of a voice in society and politics as anyone else.

Writing Skill-Thesis Statements

Just like a topic sentence summarizes a single paragraph, the thesis statement summarizes an entire essay. It tells the reader the point you want to make in your essay, while the essay itself supports that point. It is like a signpost that signals the essay’s destination. You should form your thesis before you begin to organize an essay, but you may find that it needs revision as the essay develops.

Strong Thesis Statements

A strong thesis statement must be supported by reasons, facts, or examples. If your thesis statement is only a fact, then it is difficult to support. For example, “Tomatoes are a fruit.” One might respond to this saying, “so what!” However, to make a stronger thesis statement, one might write “Americans commonly mistake tomatoes as a vegetable for several reasons.”

A strong thesis statement should also be specific. If the thesis statement is too general, the reader will not know exactly what the main idea will be of the essay. For example, “Discrimination is bad for America.” There are many questions a reader might have after reading this thesis statement. What type of discrimination (e.g., gender, age, race)? Is the discrimination from individuals or institutionalized? What part of America (e.g. its economy, education system, standard of living, government)? Answering these questions in your thesis statement will provide a more specific topic.

Weak Thesis Statements

Take a look at the pitfalls to avoid when composing your own thesis:

- A thesis is weak when it is simply a declaration of your subject or a description of what you will discuss in your essay.
 - Weak thesis statement: My paper will explain why imagination is more important than knowledge.
- A thesis is weak when it makes an unreasonable or outrageous claim or insults the opposing side.
 - Weak thesis statement: People who like pineapple on their pizza lack intelligence.
- A thesis is weak when it contains an obvious fact or something that no one can disagree with or provides a dead end.
 - Weak thesis statement: Advertising companies use sex to sell their products.
- A thesis is weak when the statement is too broad.
 - Weak thesis statement: The life of Abraham Lincoln was long and challenging.

Exercise 7 Identify Weak and Strong Thesis Statements

Read the following thesis statements. Identify each as weak (W) or strong (S). Revise the weak statements so that they conform to the requirements of a strong thesis.

_____ 1. The subject of this paper is my experience with snakes as pets.

_____ 2. The government must expand its funding for research on renewable energy resources in order to prepare for the impending end of oil.

- _____ 3. Edgar Allan Poe was a poet who lived in Baltimore during the nineteenth century.
- _____ 4. In this essay, I will give you lots of reasons why slot machines should not be legalized in Baltimore.
- _____ 5. Despite his promises during his campaign, President Kennedy took few executive measures to support civil rights legislation.
- _____ 6. My experience with young children has taught me that I want to be a disciplinary parent because I believe that a child without discipline can be a parent's worst nightmare.

Exercise 8 Practice Writing Thesis Statements

Write a thesis statement for each of the following topics. Remember to make each statement specific, precise, and demonstrable.

1. Attending college
2. The legal drinking age in the United States
3. Texting while driving
4. Public transportation

Grammar-Sentence Structure Errors

Fragments

Fragments are incomplete sentences because they either have a subject or verb missing or they are incomplete ideas.

Examples:

Incorrect: Because you went to sleep late. (incomplete idea)

Incorrect: Making dinner every day. (no verb)

Incorrect: Is studying for her exam. (no subject)

There are several ways to fix fragments.

1. Add to the incomplete idea (dependent clause).

Because you went to sleep late. You were tired this morning. (incorrect)

Because you went to sleep late, you were tired this morning. (correct)

2. Add a verb.

Making dinner every day. (incorrect)

Making dinner every day can save money! (correct)

3. Add a subject.

Is studying for her exam. (incorrect)

Lulu is studying for her exam. (correct)

Exercise 13 Practice Identifying and Correcting Fragments

Determine if there is a fragment in the sentences below. If there is a fragment, write "F." If there isn't a fragment, write "C" for "correct." Dependent clauses will begin with one of these subordinating conjunctions: after, although, as, because, before, even though, if, since, unless, until, when, while. Circle the subordinating conjunctions as you scan through the sentences.

- ___ 1. Although Mariam loves to eat broccoli. She refuses to eat it.

Run-ons and Comma Splices

A run-on (or fused) sentence is when two or more sentences are written without punctuation dividing them. A comma splice is when two sentences are divided by a comma. Both a run-on and comma splice are incorrect English grammar.

Run-on: The grass was tall I cut it.

Comma splice: The grass was tall, I cut it.

Run-on and comma splice sentences can be fixed in several ways.

1. A period .

The grass was tall. I cut it.

2. A semi-colon ;

The grass was tall; I cut it.

3. A coordinating conjunction (, + for and nor but or yet so)

The grass was tall, so I cut it.

4. A conjunctive adverb (; _____ , or . _____ ,)

The grass was tall; therefore, I cut it.

5. A subordinating conjunction

Because the grass was tall, I cut it. (showing reason)

The grass was tall before I cut it. (showing sequence)

Exercise 14 Practice Identifying and Correcting Run-on and Comma Splice Sentences

Empowering the Black Power Movement by USHistory.org

This informational text discusses how the Black Power movement of the 1960s and 1970s emerged as a major political force following the Civil Rights Movement. While the Civil Rights Movement helped end legal segregation in America, the Black Power movement sought to end the economic and social inequality that African Americans continued to face. **As you read, take notes on how the Black Power Movement was formed.**

¹On June 5, 1966, the Civil Rights Movement's James Meredith was shot in an ambush as he attempted to complete a peaceful solo "March Against Fear" from Memphis, Tennessee, to Jackson, Mississippi. Meredith had already made national headlines in 1962

by becoming the first African American to enroll at the University of Mississippi.

²Civil rights leaders such as Martin Luther King Jr., Floyd McKissick of CORE, and Stokely Carmichael of SNCC rushed to Meredith's hospital bed. They determined that his march must be completed. As Carmichael and McKissick walked through Mississippi, they observed that when it came to race relations, little had changed despite federal legislation. Local townspeople harassed the marchers while the police turned a blind eye or arrested the activists as troublemakers.

³At a mass rally, Carmichael uttered the simple statement: "What we need is black power." Crowds chanted the phrase as a slogan, and a movement began to flower.

⁴Carmichael and McKissick were heavily influenced by the words of Malcolm X, and rejected integration as a short-term goal. Carmichael felt that blacks needed to feel a sense of racial pride and self-respect before any meaningful gains could be achieved. He encouraged the strengthening of African American communities without the help of whites.

⁵Chapters of SNCC and CORE — both integrated organizations — began to reject white membership as Carmichael abandoned peaceful resistance. Martin Luther King Jr. and the NAACP denounced black power as the proper forward path. But black power was a powerful message in the streets of urban America, where resentment boiled and tempers flared.

⁶Soon, African American students began to celebrate African American culture boldly and publicly. Colleges teemed with young blacks wearing traditional African colors and clothes. Soul singer James Brown had his audience chanting "Say it loud, I'm black and I'm proud." Hairstyles unique to African Americans became popular and youths proclaimed, "Black is Beautiful!"

⁷That same year, Huey Newton and Bobby Seale took Carmichael's advice one step further. They formed the Black Panther Party in Oakland, California. Openly brandishing weapons, the Panthers decided to take control of their own neighborhoods to aid their communities and to resist police brutality. Soon the Panthers spread across the nation. The Black Panther Party borrowed many tenets from socialist movements, including Mao Zedong's famous creed "Political power comes through the barrel of a gun." The Panthers and the police exchanged gunshots on American streets as white Americans viewed the growing militancy with increasing alarm. Newton himself was arrested in October of 1968 after he was involved in a shootout with police that left an officer dead. Despite the escalation in violence around the country, the Black Panther Party kept growing.

⁸The peaceful Civil Rights Movement was dealt a severe blow in the spring of 1968. On the morning of April 4, King was gunned down by a white assassin named James Earl Ray. Riots spread through American cities as African Americans mourned the death of their most revered leader. Black power advocates saw the murder as another sign that white power must be met with similar force. As the decade came to a close, there were few remaining examples of legal discrimination. But across the land, de facto segregation loomed large. Many schools were hardly integrated and African Americans struggled to claim their fair share of the economic pie.

⁹Throughout the 1950s and 1960s, the Civil Rights Movement led by CORE, SNCC, and NAACP achieved much with their nonviolent civil disobedience methods in regards to ending Jim Crow laws and supporting integration laws. But the 1970s would belong to the Black Power movement.

Reading/Writing Strategy: Understand Order of Events

Exercise 5 Discuss how movements spread

1: Watch the video

Take notes of the main ideas. Click "CC" for English subtitles. Re-watch, if needed.

2: Practice vocabulary from the video

Take notes on new vocabulary terms. Click "CC" for English subtitles. Pause as needed.

3: Share Your Ideas

Hint: This type of *movement* is defined as a group of people working together to advance their shared political, social, or artistic ideas.

How do social-political movements become popular? How do the ideas spread?

Give an example of one movement: What was it? How did it start? How did others join in?

Write at least 5 sentences for your initial post.

Example:

The Black Lives Matter (BLM) movement began due to videos of police brutality against Black people spreading online. Protesters called for justice and equality through peaceful demonstrations, marches, and civil disobedience, raising awareness about police violence. Social media, especially hashtags like #BlackLivesMatter, helped the movement go global, gaining support through videos and personal stories. While the movement led to some policy changes in certain police forces, there's still work to be done. The movement continues to spread through online stories and news sources.

4: Reply to two of your peers

After you have created your own post, respond to at least two of your classmates' posts. See if others know about similar movements or have information that you find interesting. You may ask a follow-up question or make a connection to the other student's post. Each reply post should be at least 3 sentences.

Exercise 6 Using *before* and *after* to show sequence:

Before connects to the clause of the *later* event to show that something came *before* this. Example: *Before* I came to Delta College, I took some English classes at adult school.

(this happened later) (this happened first)

After connects to the clause of the *earlier* event to show that something came *after* this. Example: *After* I came to Delta College, I made a lot friends from many different countries.

(this happened first) (this happened later)

Punctuation: When you use *before* and *after*, your sentence will always have two clauses to show the two different events. You can write these clauses in any order. *Before* and *after* are called *dependent clause words*, meaning the clause with this word is not a complete sentence; it needs to be connected to the other clause. Use a **comma** to separate the two clauses when you start a sentence with any dependent clause word.

Example: *Before* a movement really takes off, someone has to start it and a few others have to join in.

(comma needed to separate the two clauses)

Use ideas from the chart to complete the before/after sentences. Add/change words when needed.

First	Later
A leader begins a new idea alone	One person joins the leader
A second person joins in	Another few people join in
Lots of people join in	It's a movement

Writing Skill-Introduction to Essays

Paragraph to Essay

Recall that a paragraph has three major components: a topic sentence (main idea), supporting details (the body), and a concluding sentence. An essay also has three major parts: an introductory paragraph, a body (supporting paragraphs), and a conclusion paragraph. In this unit, you will learn about the parts of an essay in more detail. In Chapter 4, you wrote an outline with ideas for three body paragraphs about social change. Now, we will discuss strategies for adding an intro paragraph and a conclusion paragraph to create your first full essay assignment.

Introductory Paragraphs

The first paragraph of an essay is called the introduction. Typically, instructors want a hook, connecting information, and a thesis statement. The hook is a sentence that attracts the reader's attention; however, it is important to note that once you have the reader's attention, you need to try to keep it. The thesis statement is similar to a topic sentence in that it states the main idea of the essay. In this section, we will focus on the first two parts of an introductory paragraph. Then, you will add your thesis statement.

Strategies

There are several strategies for the introductory paragraph. More than one strategy can be used.

Definition: Define key concepts that are the focus of the essay.

Surprising facts or statistics: Provide statistics and facts

Funnel: A funnel is like an upside-down triangle. The paragraph begins with a general statement and then the sentences become more and more specific.

Historical Background: Explain the history of the topic. What is the relationship between groups involved? Has there been conflict? This strategy usually involves dates.

Quotation (Expert or Expression): Use a quote or expression related to the topic. The quote should be from an authority or expert on the topic. The expression can be cultural like a proverb.

Anecdote: Tell a story of someone or something that is related to the topic of your essay. For example, if your essay is about immigration (which it is!), then tell the story of an immigrant.

Exercise 5: Identifying the strategies

Look at the three example introductory paragraphs. Identify which strategies are used in each paragraph. More than one strategy per paragraph is possible. Underline the thesis statement.

Example Introduction 1

There is a famous expression in English: "Stop the world, I want to get off!" This expression refers to a feeling of panic, or stress, that makes a person want to stop whatever they are doing, try to relax, and become calm again. 'Stress' means pressure or tension. It is one of the most common causes of health problems in modern life. Too much stress results in physical, emotional, and mental health problems.

Example Introduction 2

First generation immigrants are people that decided to immigrate to another country looking for a better way of life. Through the years, most of these immigrants get established and overcome economical hardships. At the same time that these foreign people begin to form their families in the country where they immigrate, they start to provide to their children who are the second generation immigrants, better opportunities to live. As immigrants there are some contrasts between both of these groups, such as economic and educational success, social beliefs, and social relationships.

Example Introduction 3

United States immigrant history can be found since first English colonists stepped on this land. By the 1960s, United States had become first choice for immigrants. About one-fifth of world immigrants now live in United States (Zong, Batalova, and Hallock). By 2016, United States immigrant population already pass 43.7 million, about one-eighth of total US population. In this large group, Asians and Hispanics are the top two immigrant sources. A recent study shows there are big differences between the first generation and second generation of Asian and Hispanic immigrant by comparing data of education, social views, and identity from each.

Example introduction 3 strategies:

Which introductory paragraph is your favorite? What features of this paragraph do you like?

Exercise 6: Write a draft for your Essay Introduction (social change)

Write an introductory paragraph for the outline you wrote about social change in Chapter 4. Be sure to use one or more of the strategies you learned in this chapter. Then end the intro paragraph with a clear main idea (your thesis statement!)

Writing Skill-Conclusion Paragraphs

A good conclusion paragraph will restate the main idea from the thesis but not in the exact words and end with a final thought. Strategies for the final thought might be a suggestion, solution, prediction, or opinion. The conclusion should not be a summary.

Writing a summary for the conclusion can be redundant or repetitive.

Final Thought Strategies

Suggestion: What do you suggest people do or not do? Should policies or rules be changed? Should people stop a habit?

Example: The second-generation immigrants could give back to their parents who worked so hard to help them become successful. They could help their parents learn English.

Solution: How can the problem be fixed? What are the steps to fixing the problem?

Example: To prevent students from dropping out of college, a peer mentorship program could be created so that students can get advice from students who may have faced the same obstacles in their educational career.

Prediction: What might happen in the future related to this topic?

Example: If immigration policies in America are reformed to create legal status for dreamers, lives will be tremendously changed for the better.

Opinion: How do you feel about this topic without saying “in my opinion”? Is this good, bad, important and why?

Example: Creating laws that deter texting while driving is an important step in preventing accidents, major injuries, and even death.

Exercise 7: Write a draft for your Essay Conclusion (social change)

Write a conclusion paragraph for your essay on social change. Be sure to write a restatement of the thesis and several sentences that provide a final thought using one or more of the strategies above.

Social Change Essay Draft 1

Exercise 8

Use the outline from Chapter 8 to write the first draft of your essay (a 5-paragraph essay on the most effective strategies for social change). When you write your draft, be sure to use strategies for the introductory and conclusion paragraphs. Remember that you are trying to convince the reader that these are effective strategies, so be sure to provide strong reasons why these strategies will bring change. You are encouraged to use examples from the readings in this unit.

Women in the Civil Rights Movement by Barret Smith

The Civil Rights Movement was a social movement in the United States that fought to end racial segregation and discrimination against African Americans. While we continue to recognize the leaders of this movement and those who contributed, the men of the movement are far more celebrated and remembered than the women. In this informational text, Barrett Smith discusses the role that women played in the Civil Rights Movement. **As you read, take notes on how women contributed to the Civil Rights Movement and how others responded to their contributions.**

¹When most people think of the Civil Rights Movement and the people who led it, they think of Martin Luther King, Jr., Malcolm X, Medgar Evers, and other men. But in reality, women were very important participants in and organizers of the movement. Though women at the time were expected to take more of a background role, many women became leaders of organizations and protests. However, they are often forgotten in history. Rosa Parks is the most well-known woman in the Civil Rights Movement, but the way her story is told makes her seem like more of a symbol than the important leader that she really was.

²Many people think Rosa Parks was just a tired seamstress who didn't feel like getting up on the bus one day, but in reality, she had been involved in planning and organizing against racism for years. The day she refused to get up on the bus was not the first time she had thought about resisting this way; in fact, she was influenced by Jo Ann Robinson, the head of the Women's Political Council who called for a bus boycott after being verbally attacked by a white bus driver in 1949. After the actions of Rosa Parks sparked the Montgomery Bus Boycott, women from many different organizations became the leading force that kept the boycott going. They arranged carpools and had bake sales to raise money for alternative transportation for those people who normally took the bus. When it became clear that the boycott was working and starting to have an influence, men took control and came to the forefront. At the first mass meeting after the boycott, the men in charge refused to let Rosa Parks speak. They said she had already done enough.

³This is an example of the huge impact women had on the movement even though they remained in the background. Here are some other women who were important to the Civil Rights Movement:

Ella Baker

⁴Ella Baker was one of the founders of the Southern Christian Leadership Conference (SCLC) and the Student Nonviolent Coordinating Committee (SNCC), two very important organizations in the Civil Rights Movement. She helped spread the movement and persuade women and young people to get involved. She also started a northern support group that raised money and supplies to help people in the South.

Septima Clark

⁵Septima Clark was an activist whose work laid the groundwork for the Civil Rights Movement. She was a teacher who created a literacy program to teach African Americans to read and write. During this time, many states used literacy tests to prevent African Americans — many of whom had diminished access to education — from voting.

Viola Liuzzo

⁶Viola Liuzzo was a high school dropout and mother of five who became involved in the Civil Rights Movement when she returned to school. She was shot at age 39 while transporting freedom marchers in Alabama.

⁷There were many more women who were key participants in the Civil Rights Movement. Women were the majority of members in many local chapters of civil rights organizations like the National Association for the Advancement of Colored People (NAACP) and the Black Panther Party. They were also the majority at many grassroots protests. Women organized these events, cooked and prepared for rallies, and then cleaned up afterwards before getting ready for the next one. As Mildred Bond Roxborough, a secretary of the NAACP said, “without women we wouldn’t have an NAACP.”

⁸However, in spite of the importance of women in the Civil Rights Movement, they had to deal with sexism and discrimination within the movement. When they asked for a representative at the 1963 March on Washington, the men organizing the march denied their request. They were offered seats on the platform and told they already had the famous gospel singer, Mahalia Jackson, as a representative. However, Jackson was not allowed to make a speech. Women were disappointed by being denied adequate representation, but they still supported the march because they knew it would have a huge impact on the country.

⁹Black women were oppressed not only by racism but also by sexism. Even within the Civil Rights Movement, they were often denied positions of leadership, overshadowed by men, and sexually harassed. Women leaders had to fight for resources as the men usually had first pick. But when they tried to speak out against the sexism in the Civil Rights Movement, the men said that they were taking the focus away from what it was really about — racism. Because of this, women felt like they had to choose one battle to fight. At the time, many Black women thought race was more important.

¹⁰The Black Power Movement started in 1966 as a movement that called for Black empowerment. As part of the legacy of the Civil Rights Movement, the Black Power Movement sought different ways to achieve and organize for equal rights and made involvement for women in the movement even harder. Before the Black Power Movement, organizations often made decisions by taking a vote and coming to a collective agreement, which made it easier for women to fill leadership positions. The leadership of the Black Power Movement was hierarchical, and men were always in charge.

¹¹The discrimination that African American women — and many other women of color — faced in the Civil Rights Movement inspired many to join the feminist movements that arose in the 1970s. However, these women did not allow discrimination to prevent them from being part of the fight for racial justice, seeking leadership positions, and struggling within the movement for equal treatment and acknowledgment.

Reading Skill-Paraphrasing

Paraphrasing is giving the same ideas of a reading in your own words. Unlike a summary, the length should be similar to the original. There are five important steps to paraphrase correctly.

1. Read the original text carefully for a general idea of its meaning.

2. Circle the key words or phrases—ideas that you cannot leave out.

3. Using a combination of the paraphrasing strategies described below, change the grammar, vocabulary, and sentence structure of the original.

4. Compare your paraphrase with the original to see if it fits the criteria of a good paraphrase.

5. Add the source information from the original text.

Exercise 5 Paraphrasing Strategies

Each strategy below has an example original sentence from the reading *Women in the Civil Rights Movement* written by Barrett Smith. Notice that the original sentence has quotation marks because it is copied word for word. However, the revised does not have quotation marks because it has been changed. Also, it has the author’s last name in parenthesis to give credit to the author. In the exercise below, you will practice one strategy at a time. However, when you paraphrase for a paragraph or essay, more than one strategy should be used.

1. Find synonyms for some of the words. .

Original: “She helped spread the movement and persuade women and young people to get involved.”

Revised: She assisted in extending the movement and convincing women and young people to participate (Smith).

Now You Try

Original: “When they asked for a representative at the 1963 March on Washington, the men organizing the march denied their request.”

Revised:

2. Move phrases: Move parts of a sentence to change the sentence structure.

Original: "They still supported the march because they knew it would have a huge impact on the country."

Revised: Because they knew it would have a huge impact on the country, they still supported the march (Smith).

Now You Try

Original: "During this time, many states used literacy tests to prevent African American people from voting."

Revised:

3. Change voice: Make active sentences passive and passive ones, active.

Original: "Black women were oppressed not only by racism but also by sexism."

Revised: Not only racism but also sexism oppressed Black women (Smith).

Now You Try

Original: "Women were disappointed by being denied adequate representation."

Revised:

4. Change parts of speech: Change nouns into verbs, verbs into nouns, etc.

Original: "When they asked for a representative at the 1963 March on Washington, the men organizing the march denied their request."

Revised: When they asked for a representation at the 1963 March on Washington, the male organizers denied their request (Smith).

Now You Try

Original: "In spite of the importance of women in the Civil Rights Movement, they had to deal with sexism and discrimination within the movement."

Revised:

5. Combine sentences: Use new connecting words to combine shorter phrases and sentences or making long sentences into shorter ones.

Original: "Women organized these events, cooked and prepared for rallies, and then cleaned up afterwards before getting ready for the next one."

Revised: Women organized these events, cooked, and prepared for rallies. They also cleaned up afterwards before getting ready for the next one (Smith).

Now You Try

Original: "She was shot at age 39 while transporting freedom marchers in Alabama."

Revised:

Exercise 6 Practice Paraphrasing

Below are sentences from the reading *Women in the Civil Rights Movement*. Paraphrase the sentences using more than one strategy and putting the source (as seen in the examples above).

1. "They arranged carpools and had bake sales to raise money for alternative transportation for those people who normally took the bus."

Strategies used:

2. "The day she refused to get up on the bus was not the first time she had thought about resisting this way."

Strategies used:

3. "When it became clear that the boycott was working and starting to have an influence, men took control and came to the forefront."

Strategies used:

4. "Though women at the time were expected to take more of a background role, many women became leaders of organizations and protests."

Grammar- Subject and Verb Agreement

Basic Rules

The verb in an English sentence needs to reflect (or “agree”) the grammatical number and “person” of the subject. Huh? This seems complicated, but it really doesn’t need to be.

1. Adding -s or -es to verbs

If the subject is he, she, or it (3rd person singular), then -s or -es is added to the present verb form.

I play soccer.

Karina plays soccer.

We do our chores every Saturday morning.

He does his chores every Saturday morning.

2. Irregular Verbs

There are several irregular verbs in English. Look at the most common ones below.

1. Be-Present and Past Tenses

I am a teacher.

You are a student.

It is new.

I was tired.

They were happy.

2. Have-Present Tense

I have two children.

He has one child.

Practicing the Basics of Subject and Verb Agreement

Exercise 7

Circle the correct verb for each sentence.

1. I (brush/brushes) my teeth twice a day.
2. You (wear/wears) the same shoes every time we go out.
3. He (kick/kicks) the soccer ball into the goal.
4. She (watch/watches) foreign films.
5. Catherine (hide/hides) behind the door.
6. We (want/wants) to have dinner with you.
7. You (work/works) together to finish the project.
8. They (need/needs) to score another point to win the game.
9. It (eat/eats) four times a day.
10. David (fix/fixes) his own motorcycle.

Exercise 8

Complete the following sentences by writing the correct present tense form of be, have, or do.

1. I _____ sure that you will succeed.
2. They _____ front-row tickets to the show.
3. He _____ a great Elvis impersonation.
4. We _____ so excited to meet you in person!

5. She _____ a fever and a sore throat.
6. You _____ not know what you are talking about.
7. You _____ all going to pass this class.
8. She _____ not going to like that.
9. It _____ appear to be the right size.
10. They _____ ready to take this job seriously.

Common Errors in Subject and Verb Agreement

Errors in subject-verb agreement may occur when

- a sentence contains a compound subject;
- the subject of the sentence is separate from the verb;
- the subject of the sentence is an indefinite pronoun, such as anyone or everyone

Compound Subjects

A compound subject is formed by two or more nouns and the coordinating conjunctions and, or, or nor.

Compound subjects combined with **and** take a plural verb form.

Alicia **and** Miguel **ride** their bikes.

The girls **and** the boys **ride** their bikes.

Compound subjects combined with **or** and **nor** are treated separately. The verb must agree with the subject that is nearest to the verb.

Neither Lizbeth nor **Rigo wants** to eat at that restaurant.

Neither the kids nor **the adults want** to eat at that restaurant.

Neither Lizbeth nor **the kids want** to eat at that restaurant.

Neither the kids nor **Lizbeth wants** to eat at that restaurant.

Either you or **Jason takes** the furniture out of the house.

Either you or **the twins take** the furniture out of the house.

Separation of Subjects and Verbs

Subjects with a phrase or clause separating them from the verb can cause confusion and errors. If you have trouble finding the subject and verb, cross out or ignore the phrases and clauses that begin with prepositions or dependent words.

The puppy under the table is my favorite. (prepositional phrase)

The car that I bought has a sunroof. (relative clause)

Indefinite Pronouns

Indefinite pronouns refer to an unspecified person, thing, or number. When an indefinite pronoun serves as the subject of a sentence, you will often use a singular verb form. However, keep in mind that there are exceptions.

Indefinite pronouns that take a **singular** verb: anybody, anyone, anything, each, everybody, everyone, everything, much, many, nobody, no one, nothing, somebody, someone, something

Indefinite pronouns that can take a singular or plural verb: all, any, none, some

Everybody in the kitchen **sings** along to the song on the radio.

All the people in the kitchen **sing** along to the song on the radio.

All the cake **is** on the floor.

Everybody refers to a group, so the verb has an -s. In the second example, the word **all** refers to people, which is plural. In the last example, the word **all** refers to cake, which is singular.

Practice Correcting Common Errors

Exercise 9

Correct the errors in subject-verb agreement in the following sentences. If there are no errors in subject-verb agreement, write OK.

1. My dog and cats chases each other all the time.
2. The books that are in my library is the best I have ever read.
3. Everyone are going to the concert except me.
4. My sister and brother cleans up after themselves.
5. Some of the clothes is packed away in the attic.

Exercise 10

Correct the errors in subject-verb agreement in the following paragraph.

Dear Hiring Manager,

I feels that I am the ideal candidate for the receptionist position at your company. I has three years of experience as a receptionist in a company that is similar to yours. My phone skills and written communication is excellent. These skills, and others that I have learned on the job, helps me understand that every person in a company helps make the business a success. At my current job, the team always say that I am very helpful. Everyone appreciate when I go the extra mile to get the job done right. Social Change Essay Peer Review

Exercise 11

An important step in the writing process is peer review. When asking a peer to review your work, explain what areas you need assistance with. Ask specific questions so that their feedback will benefit you. When reviewing a classmate’s essay, provide feedback that will help the writer improve their essay even if your feedback is positive. For example, don’t just say, “Your essay is great!” or “This is boring.” Instead, explain what about the essay that you liked. For example, “I liked the way that you introduced the topic by providing a historical example. This helped me understand the main idea of your essay.” Another example is “I think that you repeated the word “change” too many times. Is there a way that you can add variety to the vocabulary you use?”

Exercise 12 Peer Review Classmates’ Essays

2.4: Project 2 - Movements that Empower

Introduction: Movements create change in the world. You will find out and learn about movements, specifically one social-political movement that you choose to study.

Vocabulary hint: Used this way, an organization is any organized group of people with a particular purpose, such as a school, business, society, association, club, branch of government, etc.

Directions: You'll learn about movements each week through reading assignments and project pages. You will select a different movement that you want to explain to the class. You will study your movement and summarize facts and information. Then, you will show what you've learned by creating an infographic and presenting it to the class!

Complete the steps of the project:

- **First Discussion: Explain the start and/or spread of a significant movement that you know about and that you want others to learn about, too.** Use the questions below as a guide:
 - How do social-political movements become popular? How do the ideas spread?
 - Give an example of one movement: What was it? How did it start? How did others join in?
- **Next, choose a movement and discuss what people did and why it mattered.** Use the questions below as a guide (you do not need to answer them all).
 - What was the movement about? What issue were people supporting or rebelling against? What change did people want to see?
 - When and where did it happen? Is it over or continuing today?
 - Who was an inspiring leader for the movement? What did this person do to motivate others to join the movement?
 - What did the people do to show their support for this movement?
 - How did the movement spread? How did people learn about it so they could join?
 - Is there any history we should know about the movement?
 - Do you think the movement made a difference in some way?
- **Then, create an infographic using the Canva design website to provide information, explanations, and photos about the movement you selected.**
- **Design a presentation** with your partner. Show your favorite posts to the class and explain each one. Organize your presentation with a main idea (thesis) about the significance of the movement. Each member of your group must speak during the presentation and each must show the class part of the infographic page. The presentation should be approximately 3-5 minutes long.
- **Finally, check that your infographic page is complete and create a PUBLIC VIEW LINK** to turn in your Canva page.

African American Suffragists by Margaret Gushue

In the United States, women didn’t have the right to vote until the 19th amendment, which was passed in 1920. Until the law was passed, women fought tirelessly for the right to vote. These women were known as suffragists. In this informational text, Margaret Gushue discusses the African American suffragists who contributed to the fight for women’s right to vote. **As you read, take notes on how African American women were treated during the women’s suffrage movement.**

¹Imagine being in class and your teacher asks a question to the whole room. You’re excited because you have the answer, and you cannot wait to share it. But the teacher will not call on you. The teacher doesn’t even seem to notice that you have your hand in the air, waiting to be called on. Your fellow students don’t seem to notice you either. No matter what you do, the teacher is not going to let you speak. Imagine how frustrating that would feel.

²Being ignored in class is a little like what women faced before the passing of the 19th amendment. Before this amendment — no matter your age, race, or job — if you were a woman, you were not allowed to vote. This meant you had no say when it came to politics. You had no power to change things. If you tried to vote, you could be sent to jail!

³Women had to fight to get the right to vote through marches and protests. Women’s suffrage, which means women’s right to vote, became a popular movement in the United States after the Civil War. The women who fought for these rights were known as suffragists. The larger movement ended in 1920 with the passing of the 19th amendment, which gave female U.S. citizens the right to vote.

⁴Before the passing of this amendment, African American women wanted to join the movement for voting rights, but the white suffragists would not let them. White suffragists tried to distance themselves from the African American suffragists. White women believed they had a better chance on their own of convincing men to let them vote. This meant that not only were African American women denied rights by the government for being women but they were also ignored by white women because of the color of their skin. African American women responded to being ignored by forming their own groups in the fight to become equal citizens.

⁵While there were many African American women who fought for women’s suffrage, there were a few that became famous for their work. Harriet Tubman, for instance, was quite frail by the time women’s suffrage became a popular issue, but she still gave speeches to crowds. Her message was that all people, regardless of gender or color, were equal and should be able to participate in politics. Harriet Tubman died before the 19th amendment was passed, but other African American women continued the fight, such as Sojourner Truth, Ida B. Wells, and Mary Church Terrell.

Sojourner Truth

⁶Sojourner Truth was born a slave but was freed at the age of 29, when New York ended slavery within the state in 1827. Once she was free, she traveled all over the United States, giving speeches about her life as a slave. Truth believed all people were equal, and her speeches helped others understand the struggles African Americans and women of all races faced. Her most famous speech is “Ain’t I A Woman,” which she gave at the 1851 Women’s Convention. In it, she highlighted the different ways African American women were treated compared to white women. While Sojourner Truth did not live to see women granted the right to vote, her speeches and writing inspired other African American activists.

Ida B. Wells

⁷Ida B. Wells was a writer inspired by the work of Sojourner Truth. Wells was never a slave, but she was still mistreated because of the color of her skin. Because of these experiences, she decided to become an activist who fought for equality for all people. At first, her work focused on equality for African Americans, but she later focused on women’s rights. She learned that many African American women did not have the resources to learn about politics, which made her work even harder to educate them. She started the Alpha Suffrage club, bringing African American suffragists together to become a more powerful group.

⁸Ida B. Wells attended the National American Woman Suffrage Association parade in Washington D.C. in 1913. The white suffragists tried to make her and other African American women march at the back of the parade. Wells refused to participate until she was allowed to march alongside the white women. This story became widely told and drew attention to the struggles African American women faced within the women’s suffrage movement.

Mary Church Terrell

⁹Mary Church Terrell, like Ida B. Wells, became famous for her activism. She was born in 1863 to former slaves in Memphis, Tennessee. At a young age, she became aware of the treatment she received as both a woman and an African American. Terrell and Wells worked together multiple times in their lives to bring attention to the mistreatment of African Americans. Terrell wanted to be active in the women’s suffrage movement but was overlooked due to the color of her skin. As a result, she founded the National Association of Colored Women and became their first president.

¹⁰Both Wells and Terrell became important members of the National Association for the Advancement of Colored People (or NAACP). The group played a key role in the fight against racial injustice after women received the right to vote.

Exercise 3

Take notes while you read. Then write a summary of the passage.

Rosie the Riveter by Barrett Smith

While many people do not know who Rosie the Riveter truly was, her image continues to inspire women today. In this informational text, Barrett Smith discusses the beginning of Rosie and how she impacted women during World War II. **As you read, take notes on why the image of Rosie the Riveter was created, and how it inspired women during World War II.**

¹Rosie the Riveter is not an actual person but an idea that represents an era in history and the women who were part of that era. A riveter is someone who uses a rivet gun to attach metal parts, but not all Rosie the Riveters were actual riveters. Rosie the Riveter is an idea that represents all of the American women who worked in factories, shipyards, and other manufacturing plants during World War II to help the American war effort. She has also come to represent women's economic power and feminism, which is the movement that fights for the equal rights of women.

Women in the Workforce

²Before World War II, most married women were housewives and stay-at-home moms. This meant that they were dependent on their husbands for money, food, and other resources. The few women who went to work tended to be of lower class backgrounds and held domestic-type jobs that people considered “appropriate” for women, such as cleaning and clerk work with low pay. Many women lost their jobs during the Great Depression or gave them up to create opportunities for more men to work.

³When the United States entered World War II after the bombing of Pearl Harbor, most American men were conscripted to fight in the military. This left no one to work in the factories and shipyards but they were still needed to produce weapons and supplies for the war effort. Companies and the American government started recruiting women to fill the jobs that in the past had been seen as only for men.

⁴The Rosie the Riveter image and idea were used during the war by companies and the American government to encourage housewives to join the workforce. It was considered improper, at the time, for high class women to work so Rosie the Riveter was made to show a feminine woman who only works because her country needs her.

The Story Behind the Name

⁵The term “Rosie the Riveter” was first used in a 1942 song written by Redd Evans and John Jacob Loeb. The song describes Rosie as a worker on an assembly line, working hard even while other women were out at the bar. Rosie earns an award for her hard work and dedication to the American war effort. Rosie the Riveter isn't a real person but the writers of the Rosie the Riveter song were inspired by a real woman — Rosalind P. Walters, a rich woman who worked in a factory building a fighter plane called the F4U Corsair Fighter. This song became a hit and the term “Rosie the Riveter” became known across the United States.

The Story Behind the Image

⁶The iconic image that most people associate with Rosie the Riveter today is the “We Can Do It” poster created by J. Howard Miller in 1942. In this poster, a woman in a red bandanna is rolling up her sleeve with the slogan “We Can Do It!” above her. However, this poster was not actually very well known during World War II, and it was not used to recruit women to work. The “We Can Do It” poster was produced by Westinghouse Company's War Production Coordinating Committee and put up inside their factories to motivate both male and female employees to work harder. It wasn't until after the war, in the 1980s, that the poster was rediscovered and became associated with the feminist movement.

⁷In 1943, the famous visual artist Norman Rockwell created an image of Rosie the Riveter that was used as the cover of Saturday Evening Post. This image was widely distributed and very popular, and it was used during the war for war bond drives. In this image, a woman is holding a rivet gun and a lunch box that says “Rosie” on it. It is believed that Rockwell was inspired by the Rosie the Riveter song when creating this image.

The Impact

⁸Many Americans consider the Rosie the Riveter era as a time when all Americans came together to help the war movement. However, this isn't entirely true. While the war gave many white women the opportunity to work, it wasn't until 1943 that black men started to be hired and not until 1945 that black women started to be trained as welders. This eventual integration, however, did have a lasting impact on the civil rights movement as well as the feminist movement. White and black people worked alongside each other doing the same jobs and had to learn to negotiate that sudden integration (in a time when they still did not share the same water fountains, toilets, or public schools)

⁹The Rosie the Riveter era, though not as unified as people make it out to be, provided both white women and black people with the opportunity to prove that they could do the work that white men could do. The economic empowerment of the Rosie the Riveter era and the opening up of jobs to women and black people were temporary — when the war ended, men returned to their jobs, and many women returned to being housewives. However, the impact of the Rosie the Riveter era and idea was lasting in American culture and provided the foundation for later feminist movements.

Reading and Writing Skill-Responding to Texts

In addition to a summary, instructors may ask you to write a response to a reading. The summary should be first, and the response paragraphs should follow. There are three strategies to use when writing a response.

Agree/Disagree

Although you give your opinion in this strategy, you should refrain from using personal pronouns I/me/my. Do not say “In my opinion.” Instead, you should choose a point made by the author and agree or disagree. You can say something similar to “The authors state..., but this is not true as seen in the example of...”

Text to World

You can choose a quote or point made by the author and apply the concepts to an event or phenomena that is happening (has happened) in the world. The starter for this strategy might be “The idea [explain the idea] that the authors mention is related to [world event/phenomena].” Then explain how it is related.

Text to Text

Apply a quote or concept in the reading to another text. The starter for this strategy might be “The idea [explain the idea] that the authors mention is related to [state the idea from the other reading] found in the text [title] by [author].” Then explain how it is related.

Reading

Emma Watson's United Nations Speech: "HeForShe: Gender Equality is Your Issue, Too"

Emma Watson is a British actress, model, and activist, most widely known for her portrayal of Hermione Granger in the Harry Potter film series. In 2014 Watson became a UN Women Goodwill Ambassador and helped launch the campaign HeForShe. Watson presented the speech below at the Headquarters of the United Nations in New York. As you read, take notes on why Emma Watson believes the roles of men are important in ending gender inequality.

¹Today we are launching a campaign called "HeForShe."

I am reaching out to you because I need your help. We want to end gender inequality—and to do that we need everyone to be involved.

This is the first campaign of its kind at the UN: we want to try and galvanize as many men and boys as possible to be advocates for gender equality. And we don't just want to talk about it, but make sure it is tangible.

I was appointed six months ago and the more I have spoken about feminism the more I have realized that fighting for women's rights has too often become synonymous with man-hating. If there is one thing I know for certain, it is that this has to stop.

⁵For the record, feminism by definition is: "The belief that men and women should have equal rights and opportunities. It is the theory of the political, economic and social equality of the sexes."

I started questioning gender-based assumptions when at eight I was confused at being called "bossy," because I wanted to direct the plays we would put on for our parents—but the boys were not.

When at 14 I started being sexualized by certain elements of the press.

When at 15 my girlfriends started dropping out of their sports teams because they didn't want to appear "muscly."

When at 18 my male friends were unable to express their feelings.

¹⁰I decided I was a feminist and this seemed uncomplicated to me. But my recent research has shown me that feminism has become an unpopular word.

Apparently I am among the ranks of women whose expressions are seen as too strong, too aggressive, isolating, anti-men and, unattractive.

Why is the word such an uncomfortable one?

I am from Britain and think it is right that as a woman I am paid the same as my male counterparts. I think it is right that I should be able to make decisions about my own body. I think it is right that women be involved on my behalf in the policies and decision-making of my country. I think it is right that socially I am afforded the

same respect as men. But sadly I can say that there is no one country in the world where all women can expect to receive these rights.

No country in the world can yet say they have achieved gender equality.

¹⁵These rights I consider to be human rights but I am one of the lucky ones. My life is a sheer privilege because my parents didn't love me less because I was born a daughter. My school did not limit me because I was a girl. My mentors didn't assume I would go less far because I might give birth to a child one day. These influencers were the gender equality ambassadors that made me who I am today. They may not know it, but they are the inadvertent feminists who are changing the world today. And we need more of those.

And if you still hate the word—it is not the word that is important but the idea and the ambition behind it. Because not all women have been afforded the same rights that I have. In fact, statistically, very few have been.

In 1995, Hilary Clinton made a famous speech in Beijing about women's rights. Sadly many of the things she wanted to change are still a reality today.

But what stood out for me the most was that only 30 percent of her audience were male. How can we affect change in the world when only half of it is invited or feel welcome to participate in the conversation?

Men—I would like to take this opportunity to extend your formal invitation. Gender equality is your issue too.

²⁰Because to date, I've seen my father's role as a parent being valued less by society despite my needing his presence as a child as much as my mother's.

I've seen young men suffering from mental illness unable to ask for help for fear it would make them look less “macho”—in fact in the UK suicide is the biggest killer of men between 20-49 years of age; eclipsing road accidents, cancer and coronary heart disease. I've seen men made fragile and insecure by a distorted sense of what constitutes male success. Men don't have the benefits of equality either.

We don't often talk about men being imprisoned by gender stereotypes but I can see that that they are and that when they are free, things will change for women as a natural consequence.

If men don't have to be aggressive in order to be accepted women won't feel compelled to be submissive. If men don't have to control, women won't have to be controlled.

Both men and women should feel free to be sensitive. Both men and women should feel free to be strong... It is time that we all perceive gender on a spectrum not as two opposing sets of ideals.

²⁵If we stop defining each other by what we are not and start defining ourselves by what we are—we can all be freer and this is what HeForShe is about. It's about freedom.

I want men to take up this mantle. So their daughters, sisters and mothers can be free from prejudice but also so that their sons have permission to be vulnerable and human too—reclaim those parts of themselves they abandoned and in doing so be a more true and complete version of themselves.

You might be thinking who is this Harry Potter girl? And what is she doing up on stage at the UN. It's a good question and trust me, I have been asking myself the same thing. I don't know if I am qualified to be here. All I know is that I care about this problem. And I want to make it better.

And having seen what I've seen—and given the chance—I feel it is my duty to say something. English Statesman Edmund Burke said: “All that is needed for the forces of evil to triumph is for enough good men and women to do nothing.”

In my nervousness for this speech and in my moments of doubt I've told myself firmly—if not me, who, if not now, when. If you have similar doubts when opportunities are presented to you I hope those words might be helpful.

³⁰Because the reality is that if we do nothing it will take 75 years, or for me to be nearly a hundred before women can expect to be paid the same as men for the same work. 15.5 million girls will be married in the next 16 years as children. And at current rates it won't be until 2086 before all rural African girls will be able to receive a secondary education.

If you believe in equality, you might be one of those inadvertent feminists I spoke of earlier.

And for this I applaud you.

We are struggling for a uniting word but the good news is we have a uniting movement. It is called HeForShe. I am inviting you to step forward, to be seen to speak up, to be the “he” for “she”. And to ask yourself if not me, who? If not now, when?

Thank you.
