This text is disseminated via the Open Education Resource (OER) LibreTexts Project (<https://LibreTexts.org>) and like the thousands of other texts available within this powerful platform, it is freely available for reading, printing, and "consuming."

The LibreTexts mission is to bring together students, faculty, and scholars in a collaborative effort to provide an accessible, and comprehensive platform that empowers our community to develop, curate, adapt, and adopt openly licensed resources and technologies; through these efforts we can reduce the financial burden born from traditional educational resource costs, ensuring education is more accessible for students and communities worldwide.

Most, but not all, pages in the library have licenses that may allow individuals to make changes, save, and print this book. Carefully consult the applicable license(s) before pursuing such effects. Instructors can adopt existing LibreTexts texts or Remix them to quickly build course-specific resources to meet the needs of their students. Unlike traditional textbooks, LibreTexts' web based origins allow powerful integration of advanced features and new technologies to support learning.

LibreTexts is the adaptable, user-friendly non-profit open education resource platform that educators trust for creating, customizing, and sharing accessible, interactive textbooks, adaptive homework, and ancillary materials. We collaborate with individuals and organizations to champion open education initiatives, support institutional publishing programs, drive curriculum development projects, and more.

The LibreTexts libraries are Powered by [NICE CXone Expert](#) and was supported by the Department of Education Open Textbook Pilot Project, the California Education Learning Lab, the UC Davis Office of the Provost, the UC Davis Library, the California State University Affordable Learning Solutions Program, and Merlot. This material is based upon work supported by the National Science Foundation under Grant No. 1246120, 1525057, and 1413739.

Any opinions, findings, and conclusions or recommendations expressed in this material are those of the author(s) and do not necessarily reflect the views of the National Science Foundation nor the US Department of Education.

Have questions or comments? For information about adoptions or adaptations contact info@LibreTexts.org or visit our main website at <https://LibreTexts.org>.

The LibreTexts name, logo, and book covers are trademarked by LibreTexts, Inc. (a 501(c)(3) not-for-profit organization) and protected against unauthorized use.

TABLE OF CONTENTS

Licensing

1: Sunrise, Sunset, Moonrise, and Moonset

- 1.1: Introduction
- 1.2: Daytime, Nighttime
- 1.3: Seasons and the Sun's Location
- 1.4: Moonrise, Moonset
- 1.5: Predicting These Motions
- 1.6: The United States Naval Observatory's Astronomical Applications

2: Constellations and the Night Sky

- 2.1: Introduction
- 2.2: Origins
- 2.3: Egyptians, Greeks, and Hebrews
- 2.4: Orion and the Southern Celestial Hemisphere
- 2.5: Native American Stories
- 2.6: The Pleiades and The Big Dipper

3: Light Pollution and Observing

- 3.1: Introduction
- 3.2: Streetlights
- 3.3: Glare and Shielding
- 3.4: Effects of Light Pollution
- 3.5: Potential Solutions

4: About Your Eyes

- 4.1: Introduction
- 4.2: The Human Eye
- 4.3: Eye Tests

5: Scaling the Solar System

- 5.1: Introduction
- 5.2: The Center of the Universe
- 5.3: Sizing Up
- 5.4: To Scale
- 5.5: Earth and Moon

6: Optics and Telescopes

- 6.1: Introduction
- 6.2: Lenses
- 6.3: Mirrors
- 6.4: The Telescope

7: Solar System Storms

- 7.1: Introduction
- 7.2: Cyclones
- 7.3: Storms of Jupiter
- 7.4: Tornadoes and Dust Devils
- 7.5: Lightning

8: Meteors, Meteorites, and Cratering

- 8.1: Introduction
- 8.2: Space Vagabonds
- 8.3: Observing a Meteor Shower
- 8.4: Meteorites
- 8.5: Impacts and Cratering

9: The Hubble Space Telescope

- 9.1: Introduction
- 9.2: Hubble Space Telescope
- 9.3: Repairing the HST
- 9.4: HST Achievements

10: Star Colors and Spectroscopy

- 10.1: Introduction
- 10.2: Star Color
- 10.3: The Spectroscope
- 10.4: Elemental Data

11: H-R Diagram

- 11.1: Introduction
- 11.2: Hertzsprung- Russell Diagram
- 11.3: H-R Diagram for Milky Way Stars
- 11.4: H-R Diagram and Star Life Cycles

12: Hubble's Law Origins

- 12.1: Introduction
- 12.2: Hubble's Law Origins
- 12.3: Hubble's Law
- 12.4: The Hubble Parameter
- 12.5: Lab 12 Assessments

13: Planetarium, Astronomy Club

- 13.1: Observing
 - 13.1.1: Introduction
 - 13.1.2: The Telescope
 - 13.1.3: Observatories and Early Astronomy Clubs
 - 13.1.4: The Planetarium
 - 13.1.5: Current Astronomy Clubs
