This text is disseminated via the Open Education Resource (OER) LibreTexts Project (<https://LibreTexts.org>) and like the thousands of other texts available within this powerful platform, it is freely available for reading, printing, and "consuming."

The LibreTexts mission is to bring together students, faculty, and scholars in a collaborative effort to provide an accessible, and comprehensive platform that empowers our community to develop, curate, adapt, and adopt openly licensed resources and technologies; through these efforts we can reduce the financial burden born from traditional educational resource costs, ensuring education is more accessible for students and communities worldwide.

Most, but not all, pages in the library have licenses that may allow individuals to make changes, save, and print this book. Carefully consult the applicable license(s) before pursuing such effects. Instructors can adopt existing LibreTexts texts or Remix them to quickly build course-specific resources to meet the needs of their students. Unlike traditional textbooks, LibreTexts' web based origins allow powerful integration of advanced features and new technologies to support learning.

LibreTexts is the adaptable, user-friendly non-profit open education resource platform that educators trust for creating, customizing, and sharing accessible, interactive textbooks, adaptive homework, and ancillary materials. We collaborate with individuals and organizations to champion open education initiatives, support institutional publishing programs, drive curriculum development projects, and more.

The LibreTexts libraries are Powered by [NICE CXone Expert](#) and was supported by the Department of Education Open Textbook Pilot Project, the California Education Learning Lab, the UC Davis Office of the Provost, the UC Davis Library, the California State University Affordable Learning Solutions Program, and Merlot. This material is based upon work supported by the National Science Foundation under Grant No. 1246120, 1525057, and 1413739.

Any opinions, findings, and conclusions or recommendations expressed in this material are those of the author(s) and do not necessarily reflect the views of the National Science Foundation nor the US Department of Education.

Have questions or comments? For information about adoptions or adaptations contact info@LibreTexts.org or visit our main website at <https://LibreTexts.org>.

TABLE OF CONTENTS

Licensing

Matter and Energy Laboratory Manual

- 00: Front Matter
 - Table of Contents
- 1: The Properties of Oxygen Gas (Experiment)
- 2: Using Excel for Graphical Analysis of Data (Experiment)
- 3: Lewis Structures and Molecular Shapes (Experiment)
- 4: Detection and Absorption of Ultraviolet Light (Experiment)
- 5: Acid, Bases and pH (Experiment)
- 6: Synthetic Polymers and Plastics (Experiment)

Unit 1

- 1: Matter
 - 1.1: What is Matter?
 - 1.2: Classifying Matter According to Its State: Solid, Liquid, and Gas
 - 1.3: Classifying Matter According to Its Composition
 - 1.4: Differences in Matter: Physical and Chemical Properties
 - 1.5: Changes in Matter - Physical and Chemical Changes
 - 1.6: Cutting Aluminum until you get Atoms
 - 1.7: Indivisible - The Atomic Theory
 - 1.8: The Nuclear Atom
 - 1.9: The Properties of Protons, Neutrons, and Electrons
 - 1.10: Elements: Defined by Their Number of Protons
 - 1.11: Looking for Patterns: The Periodic Table
 - 1.12: Ions - Losing and Gaining Electrons
 - 1.13: Compounds Display Constant Composition
 - 1.14: Chemical Formulas: How to Represent Compounds
 - 1.15: Naming Molecular Compounds
 - 1.16: Structure and Composition of the Atmosphere
 - 1.17: Conservation of Mass - There is No New Matter
 - 1.18: Evidence of a Chemical Reaction
 - 1.19: Chemical Equations
 - 1.20: How to Write Balanced Chemical Equations
- A: Preliminary
 - 2.1: The Scope of Chemistry
 - 2.2: Hypothesis, Theories, and Laws
 - 2.3: Scientific Notation - Writing Large and Small Numbers
 - 2.4: Significant Figures - Writing Numbers to Reflect Precision
 - 2.5: Significant Figures in Calculations
 - 2.6: The Basic Units of Measurement
