

INSTRUCTIONAL METHODS STRATEGIES AND TECHNOLOGIES TO MEET THE NEEDS OF ALL LEARNERS

Paula Lombardi

Instructional Methods Strategies and Technologies (Lombardi 2018)

This text is disseminated via the Open Education Resource (OER) LibreTexts Project (<https://LibreTexts.org>) and like the thousands of other texts available within this powerful platform, it is freely available for reading, printing, and "consuming."

The LibreTexts mission is to bring together students, faculty, and scholars in a collaborative effort to provide an accessible, and comprehensive platform that empowers our community to develop, curate, adapt, and adopt openly licensed resources and technologies; through these efforts we can reduce the financial burden born from traditional educational resource costs, ensuring education is more accessible for students and communities worldwide.

Most, but not all, pages in the library have licenses that may allow individuals to make changes, save, and print this book. Carefully consult the applicable license(s) before pursuing such effects. Instructors can adopt existing LibreTexts texts or Remix them to quickly build course-specific resources to meet the needs of their students. Unlike traditional textbooks, LibreTexts' web based origins allow powerful integration of advanced features and new technologies to support learning.

LibreTexts is the adaptable, user-friendly non-profit open education resource platform that educators trust for creating, customizing, and sharing accessible, interactive textbooks, adaptive homework, and ancillary materials. We collaborate with individuals and organizations to champion open education initiatives, support institutional publishing programs, drive curriculum development projects, and more.

The LibreTexts libraries are Powered by [NICE CXone Expert](#) and was supported by the Department of Education Open Textbook Pilot Project, the California Education Learning Lab, the UC Davis Office of the Provost, the UC Davis Library, the California State University Affordable Learning Solutions Program, and Merlot. This material is based upon work supported by the National Science Foundation under Grant No. 1246120, 1525057, and 1413739.

Any opinions, findings, and conclusions or recommendations expressed in this material are those of the author(s) and do not necessarily reflect the views of the National Science Foundation nor the US Department of Education.

Have questions or comments? For information about adoptions or adaptations contact info@LibreTexts.org or visit our main website at <https://LibreTexts.org>.

The LibreTexts name, logo, and book covers are trademarked by LibreTexts, Inc. (a 501(c)(3) not-for-profit organization) and protected against unauthorized use.

TABLE OF CONTENTS

Licensing

1: Key Practices in Instruction and Student Learning

- 1.1: Planning Lessons
- 1.2: Involving all
- 1.3: Talk for learning
- 1.4: Using pair work
- 1.5: Using questioning to promote thinking
- 1.6: Monitoring and giving feedback
- 1.7: Involving all
- 1.8: Assessing progress and performance
- 1.9: Using local resources
- 1.10: Storytelling, songs, role play and drama

2: Surface and Deep Learning

3: Motivation

- 3.1: Linking learner motivation to deeper engagement
- 3.2: Intrinsic and Extrinsic Motivation
- 3.3: Self-regulation
- 3.4: Attention Regulation
- 3.5: The student-teacher relationship
- 3.6: Alternative learning environments

4: Direct Instruction

- 4.1: Introduction
- 4.2: Debate
- 4.3: Explicit, Systematic Instruction in the context of Mathematics Instruction
- 4.4: Videos
- 4.5: Recommended Reading and References

5: Problem Based Learning

- 5.1: Description of Problem Based Learning
- 5.2: Characteristics of Problem Based Learning
- 5.3: Designing the learning environment
- 5.4: Videos
- 5.5: References

6: Project Based Learning

- 6.1: Project-based learning through developing the five attitudes of creative people
- 6.2: Arguments For and Against Project Based Learning
- 6.3: Reflections
- 6.4: References

7: Cooperative Learning

- 7.1: Definition and Background
- 7.2: Theoretical Framework for Cooperative Learning
- 7.3: Collaborative vs. Cooperative Learning
- 7.4: Phases of Cooperative Learning
- 7.5: Helpful Hints and FAQ
- 7.6: Other Forms
- 7.7: Benefits and Drawbacks of Cooperative Learning
- 7.8: Conclusion
- 7.9: References

8: Bloom's Taxonomy

- 8.1: History
- 8.2: What is Bloom's Taxonomy?
- 8.3: Why use Bloom's Taxonomy?
- 8.4: Conclusion
- 8.5: Videos
- 8.6: Resources and References

9: Questioning

- 9.1: Questioning Techniques
- 9.2: How to question
- 9.3: Summary of research
- 9.4: Common pitfalls of questioning and possible solutions
- 9.5: Additional resources and references

10: Feedback

- 10.1: Introduction
- 10.2: Feedback
- 10.3: Peer Feedback
- 10.4: References

11: Scaffolding

- 11.1: What is scaffolding?
- 11.2: Vygotsky's zone of proximal development
- 11.3: Characteristics and critical features of scaffolded instruction
- 11.4: Six general elements of scaffolded instruction
- 11.5: Methods of instructional scaffolding
- 11.6: Applications of scaffolding
- 11.7: Scaffolding vs. differentiation
- 11.8: Challenges and benefits of scaffolding
- 11.9: Scaffolding strategies
- 11.10: References

12: Differentiated Instruction

- 12.1: Introduction
- 12.2: Differentiation vs. scaffolding
- 12.3: Differentiated Instruction and Universal Design for Learning
- 12.4: Components and features
- 12.5: References

13: Universal Design for Learning

- 13.1: UDL at a glance
- 13.2: UDL resources
- 13.3: References

14: Assessment for Learning

- 14.1: Introduction
- 14.2: Characteristics of and use of AfL
- 14.3: Summary of the research
- 14.4: Assessment in AfL
- 14.5: Resources and references

15: Teacher made assessment strategies

- 15.1: Introduction
- 15.2: Basic Concepts
- 15.3: Selecting appropriate assessment techniques
- 15.4: Reliability
- 15.5: Absence of bias
- 15.6: Teachers' observation, questioning, and record keeping
- 15.7: Selected response items
- 15.8: Scoring rubrics
- 15.9: Performance assessments
- 15.10: Portfolios
- 15.11: Choosing assessments
- 15.12: Action research
- 15.13: Privacy
- 15.14: Grading and reporting
- 15.15: Summary, key terms and references

16: Standardized and other formal assessments

- 16.1: Introduction
- 16.2: Types of standardized tests
- 16.3: Standards based assessment
- 16.4: International testing
- 16.5: Understanding test results
- 16.6: Issues with standardized tests
- 16.7: Summary, key terms and references

17: Assessing Learning Using Technology

- 17.1: How technology helps measure student learning
- 17.2: Formative assessment technology tools
- 17.3: Summative assessment technology tools
- 17.4: Electronic Portfolios
- 17.5: My experience using technology for assessment by Tamika McKenzie
- 17.6: Summary, resources and references

18: Understanding by Design

- 18.1: Introduction
- 18.2: The Backward Design Template

- 18.3: Teacher Designed Module on UbD and Teaching Mathematics
- 18.4: References

19: Classroom Centered Practices in Mathematics

- 19.1: Culturally responsive teaching
- 19.2: Teacher and student relationships
- 19.3: Developing a growth mindset
- 19.4: Academic language
- 19.5: Support, structure and scaffolding
- 19.6: Cross-curricular teaching practices
- 19.7: Mathematical representations and manipulatives
- 19.8: Mathematically productive instructional routines
- 19.9: References

20: Math Interventions and Strategies

- 20.1: Introduction
- 20.2: Concrete, representational/visual/Pictorial, and abstract/symbolic models
- 20.3: Effective questioning and providing feedback
- 20.4: Teaching vocabulary and symbols
- 20.5: Graphics organizers
- 20.6: Fluency building
- 20.7: Error analysis

21: Learning with Digital Tools

- 21.1: Introduction
- 21.2: Technology integration is driven by good teaching practices
- 21.3: Modeling and guided practice
- 21.4: What is engaged learning with technology tools?
- 21.5: What is enhanced learning with technology tools?
- 21.6: What is extended learning with technology tools?
- 21.7: Resources and references
- 21.9: New Page

22: Selection of Educational Technology

- 22.1: Introduction
- 22.2: The importance of careful selection
- 22.3: Tool selection
- 22.4: My experience selecting educational technology
- 22.5: Conclusion and references
- 22.6: New Page
- 22.7: New Page
- 22.8: New Page
