

PHYSICAL GEOLOGY

Lumen Learning

Book: Physical Geology (Lumen)

This text is disseminated via the Open Education Resource (OER) LibreTexts Project (<https://LibreTexts.org>) and like the thousands of other texts available within this powerful platform, it is freely available for reading, printing, and "consuming."

The LibreTexts mission is to bring together students, faculty, and scholars in a collaborative effort to provide an accessible, and comprehensive platform that empowers our community to develop, curate, adapt, and adopt openly licensed resources and technologies; through these efforts we can reduce the financial burden born from traditional educational resource costs, ensuring education is more accessible for students and communities worldwide.

Most, but not all, pages in the library have licenses that may allow individuals to make changes, save, and print this book. Carefully consult the applicable license(s) before pursuing such effects. Instructors can adopt existing LibreTexts texts or Remix them to quickly build course-specific resources to meet the needs of their students. Unlike traditional textbooks, LibreTexts' web based origins allow powerful integration of advanced features and new technologies to support learning.

LibreTexts is the adaptable, user-friendly non-profit open education resource platform that educators trust for creating, customizing, and sharing accessible, interactive textbooks, adaptive homework, and ancillary materials. We collaborate with individuals and organizations to champion open education initiatives, support institutional publishing programs, drive curriculum development projects, and more.

The LibreTexts libraries are Powered by [NICE CXone Expert](#) and was supported by the Department of Education Open Textbook Pilot Project, the California Education Learning Lab, the UC Davis Office of the Provost, the UC Davis Library, the California State University Affordable Learning Solutions Program, and Merlot. This material is based upon work supported by the National Science Foundation under Grant No. 1246120, 1525057, and 1413739.

Any opinions, findings, and conclusions or recommendations expressed in this material are those of the author(s) and do not necessarily reflect the views of the National Science Foundation nor the US Department of Education.

Have questions or comments? For information about adoptions or adaptations contact info@LibreTexts.org or visit our main website at <https://LibreTexts.org>.

The LibreTexts name, logo, and book covers are trademarked by LibreTexts, Inc. (a 501(c)(3) not-for-profit organization) and protected against unauthorized use.

TABLE OF CONTENTS

Licensing

Chapter 1: Earth's Origin, and an Introduction to Topographic Maps

- 1.1: Introduction
- 1.2: Assignment- Topographic Maps
- 1.3: Discussion 1- Introduce Yourself

Chapter 2: Earth's Interior

- 2.1: Introduction
- 2.2: Assignment- Exploring Earth's layers and seismic-wave travel times

Chapter 3: Plate Tectonics

- 3.1: Introduction
- 3.2: Assignment- Using Google Earth to Visualize Plate Boundaries
- 3.3: Discussion 2- Plate Tectonics

Chapter 4: Minerals

- 4.1: Introduction
- 4.2: PCC Rock and Mineral Guide (optional)

Chapter 5: Igneous Rocks

- 5.1: Introduction
- 5.2: Igneous Rock Identification
- 5.3: Assignment- Igneous Rock Lab
- 5.4: PCC Rock and Mineral Guide (optional)

Chapter 6: Volcanism

- 6.1: Introduction
- 6.2: Assignment- Exploring Volcanic Features of the United States
- 6.3: Discussion 3- Current Events in Geology

Chapter 7: Weathering, Erosion, and Sedimentary Rocks

- 7.1: Introduction
- 7.2: Sedimentary Rock Identification
- 7.3: Assignment- Sedimentary Rock Lab
- 7.4: PCC Rock and Mineral Guide (optional)

Chapter 8: Metamorphism and Metamorphic Rock

- 8.1: Introduction
- 8.2: Metamorphic Rock Identification
- 8.3: Assignment- Metamorphic Rock Lab

Chapter 9: Geologic Time

- 9.1: Introduction
- 9.2: Assignment- Relative Dating and Cross Cutting Relationships

Chapter 10: Earthquakes

- 10.1: Introduction
- 10.2: Discussion 4- Current Events in Geology

Chapter 11: Structural Geology

- 11.1: Introduction
- 11.2: Assignment- Identifying Structural Features in a Geological Landscape

Chapter 12: Streams and Floods

- 12.1: Introduction
- 12.2: Assignment- Calculating and Assessing Flood Recurrence Intervals

Chapter 13: Groundwater

- 13.1: Introduction
- 13.2: Assignment- Design Your Own Fieldtrip

Chapter 14: Mass Wasting and Glaciers

- 14.1: Introduction
- 14.2: Assignment- A Virtual Field Trip Guide to Exploring the Volcanic History and Evidence of Mass Wasting at Sentinel Peak, Tucson, Arizona
- 14.3: Discussion- Climate Change

Chapter 15: Climate Change

- 15.1: Introduction
- 15.2: Assignment- Changes in Extent of Sea Ice at the Poles
- 15.3: Exam 3 Information (Final Exam)

Chapter 16: Geologic History of North America

- 16.1: Introduction
- 16.2: Physiographic Provinces of the United States of America
- 16.3: Assignment- Making North America
