Chapter 1: Composition and Rhetorical Analysis

Essay 1: Rhetorical Analysis- Appeals Prompt

While going over the Prompt , keep these questions/ideas in mind:

- What is rhetoric?
- What text do I want to use?
- What is the text's overall message or theme?
- What are the Four Major Rhetorical Appeals and how are they used in the text(Ethos, Logos, Pathos, Kairos)? How are they used together or separately?
- How do these appeals make a reader believe/disbelieve the text?

Background

Aristotle termed the art of Rhetoric as "modes for persuasion" - otherwise known as rhetorical appeals. He broke down the basic building blocks of into their various parts:kairos, [ethos](#), [pathos](#), and [logos](#) .. These rhetorical appeals are means of persuading others to believe a particular point of view. They are often used in speech writing and advertising to sway the audience. For our first essay, we will study the use of rhetoric to deliver a text's intended message.

Ethos (sometimes called an appeal to ethics/credibility), then, is used as a means of convincing an audience via the authority or credibility of the persuader, be it a notable or experienced figure in the field or even a popular celebrity.

Pathos (appeal to emotion) is a way of convincing an audience of an argument by creating an emotional response to an impassioned plea or a convincing story. Sometimes, this entails sensory details and personal experience.

Logos (appeal to logic) is a way of persuading an audience with reason, using facts and figures. This kind of appeal relies on evidence and critical thinking to support its argument.

Kairos (appeal to time/audience) is a way of acknowledging the rhetorical time period/place that this argument takes place in; when the argument takes place and who the argument is directed towards.

Essay 1- Prompt

In Essay 1, we will look at various articles, speeches, etc. to examine the texts' intended arguments. Each of you will choose one of our readings, and come up an argument about how this text uses rhetorical appeals effectively to deliver its intended message.

In Essay 1, we will discuss how these authors the appeals, and the creative language to deliver an intended message/mull over

a particular theme/message.

Rhetorical Appeals: (Focus your thesis/argument on 3-4 Appeals in the text)

- Ethos- How does the author use credibility to deliver their message?
- Logos- How does the author use logic to deliver their message?
- Pathos- How does the author use emotion to deliver their message?
- Kairos- How does the author use the time period/audience/rhetorical situation to deliver their message?

Themes(Pick or find 1)

· Freedom, love, hope, overcoming racism, America, Unity, reunification, togetherness, compassion, strength, changing the world, eliminating racism, fighting communism, being strong in the face of danger, being critical of the world, etc.

Thesis Hint:

Topic + Opinion +Reasons Why=Thesis

(Title of article/speech and author + Theme+ 3 Rhetorical Appeals)

In his "I Have a Dream" speech, Martin Luther King reflected on the power of hope through his use of ethos, logos, pathos, and kairos.

Brainstorming Tips For Rhetorical Analysis:

Write down the answers to the next questions:

- What do you know about the author of the text?
- What are the peculiarities of the target audience?
- What was the purpose of the text?
- What is the text's intended message?
- What kinds of rhetorical strategies does it use? Find examples.
- Why do these rhetorical devices make a reader believe/ not believe their point?
- Remember, *Do not use I!*

By answering these questions during your reading/annotating process, you will be able to simplify your analysis of a text, and you will begin your writing process. Your essay will explain what strategies the author used, what persuasive methods and arguments made the article conclusive and in which way [pathos](#), [ethos](#), [logos](#) ([Links to an external site.](#))

[Links to an external site.](#), and Kairos are connected and interacted.

Author's Bio:

Edgar Allan Poe (1809–1849) was born in Boston, Massachusetts. Within a year, his alcoholic father deserted his mother and three infant children. When his mother died of tuberculosis in Richmond, Virginia, three-year-old Edgar was adopted by John Allan and his wife. Allan, a prosperous businessperson, spent time in England, where Poe began his education at private schools.

Back in the United States, Allan forced Poe to leave the University of Virginia in 1826 when Poe incurred gambling debts he could not pay. He served in the U.S. Army from 1827 to 1829, eventually attaining the rank of sergeant major. Poe next attended West Point, hoping for further military advancement.

Shortly thereafter, Mrs. Allan died of tuberculosis. Poe angrily confronted his foster father about his extramarital affairs; for this candour, he was disowned. Believing that Allan would never reinstate him as heir, Poe deliberately violated rules to provoke his dismissal from the Academy. In 1835, Poe began his career as editor, columnist, and reviewer, earning a living he could not make as a writer of stories and poems. That same year, he married his thirteen-year-old cousin, Virginia Clemm, and lived with her and her mother during a period marked by

illness and poverty. Virginia died of tuberculosis in 1847. Poe died, delirious, under mysterious circumstances, in 1849.

He perfected the Gothic horror story with "The Fall of the House of Usher" and originated the modern detective story in "The Gold-Bug" and "The Murders in the Rue Morgue."

Dr. Martin Luther King Junior

...in whose symbolic shadow we stand today, signed the historic decree came as a great beacon light of hope to comfort to the hearts of suffering people. It came as a day of their capacity.

But one hundred years later, the Negro still is not free. One hundred years later, the life of the Negro is still sadly shaped by the misdeeds of the past. The chains of discrimination. One hundred years later, the Negro lives on a lonely island of poverty in the midst of a vast sea of material prosperity. One hundred years later, the Negro is still languishing in the corners of American society and finds himself an exile in his own land. So we have come here today to dramatize a shameful condition.

In a sense we have come to this nation's capital to cash a check. When the architects of our republic wrote the magnificent words of the Constitution and the Declaration of Independence, they were signing a promissory note to which every American was to fall heir. This note was a promise that all men, yes, black men as well as white men, would be guaranteed the unalienable rights of life, liberty, and the pursuit of happiness.

It is obvious today that America has defaulted on this promissory note insofar as her citizens of color are concerned. Instead of honoring this sacred obligation, America has given the Negro people a bad check, a check which has come back marked "insufficient funds." But we refuse to believe that the bank of justice is bankrupt. We refuse to believe that there are insufficient funds in the great vaults of opportunity of this nation. So we have come to cash this check - a check.

Chapter 2: Food and Wellness

For this paper, you will select an idea related to Fast Food or Obesity and consider the larger implications of it. Additionally, you will use the research provided to develop your idea and bring in examples that support your points. The essay will be **4-6 pages** in length and follow MLA documentation guidelines. **(You should use 2 articles from class+ 1 peer-reviewed article you researched+ and at least 1 personal experience as evidence to support your argument.)**

We will be doing plenty of workshopping in class and activities before you have to turn in the final draft.

After reading the articles and doing the three progression exercises, you should have an idea of the larger implications of the essays (also, remember classroom discussions and group work). In your essay, answer the following question:

What is a common topic you saw in two or more of the readings? Why are these authors writing about this argument? What do you think/argue/believe about this idea? Why do you believe this to be true?

Thesis Hints

Topic+ Opinion+ Reasons Why= Thesis

“In order to prevent the national threat of obesity, the American government needs to regulate fast food advertising, provide easier to understand nutritional information, and educate the people on healthy eating habits “

Some questions to think about while writing trying to think of a theme for you essay:

- What is obesity? What is it based on? is this an accurate indicator of health?
- What is the kind of body image portrayed in the media? Why is this significant?
- How does body image translate into gender stereotyping?
- Who is ultimately responsible for America's obese culture?
- is the obesity epidemic real or is it manufactured? how? Why?
- What is the solution to America's obesity problem?
- Is there an awareness to be health conscious all throughout America or only in particular places? Why is this important to consider?
- Should government be involved in regulating fast food? How is this significant in terms of personal choice? Control issues?

Requirements:

- 4-6 pages(@ least 4 full pages)
- Quotes from @ least 2 articles from class
- One Peer Reviewed Article You Found On your own
- One personal experience
- MLA format

Here, you will find the reading "What You Eat Is Your Business" by Radley Balko & "Junk food' and the consumer blame game " By Hayley Janssen

The story is a docx. file. I recommend either printing it out or annotating the digital copy on your computer, or taking notes on the story on a separate piece of paper.

While reading the article, keep these questions/ideas in mind:

- What is obesity?
- What is BMI? Do you think BMI is a good indicator of health?
- Does junk food affect health negatively?
- Is it the person who is responsible for their health or the government?
- What kind of healthy eating campaigns have you noticed?
- Should government be involved in regulating fast food? Advertising? Nutritional Information? How is this significant in terms of personal choice? Control issue?
- What is the kind of body image portrayed in the media? Why is this significant?
- How does body image translate into gender stereotyping?
- Who is ultimately responsible for America's obese culture? How can we change the culture?
- Is it the eater who is responsible or the government? Both?

Essay 2 Topic

As a reminder, your essay topic is: What is a main common idea you saw in two or more of the readings about fast food/obesity?

What is your position on this topic/ idea? (ex. food regulation, advertising, food tax, etc.)

Example: It is the government's responsibility to regulate nutritional information, promote healthy eating habits, and regulate advertising.

Chapter 4: Research Essay

Essay 4 Prompt: Research Essay

This is a Research Based Argumentative Essay on a controversial topic of your choice. However, you will be expected to use a counter argument to support your point. Remember, a counterargument is an acknowledgement of the other side's argument, but then the author explains why the other side is wrong and they are right. The counterargument makes your argument stronger because, like a lawyer in a courtroom, you must acknowledge the argument against and explain why you are right and they are wrong.

I will provide several readings that take a position on an arguable issue in our world. You should read these articles to gain a better understanding of the different types of topics. If you don't have a topic in mind, you can choose one article/topic and take a side. After you choose your topic/side, you will begin to do research on this topic in order to find more sources to support your overall argument. Eventually, you will turn in an Annotated Bibliography in order to determine the validity of your sources and to make sure they are all scholarly and peer-reviewed.

Thesis Hints:

Topic + Opinion+ Reasons WHY

Choose an article/topic + Opinion on that topic + Why You Think this is true

(Online education is an effective mode of education that should be given more resources by the College because it widens accessibility, it allows students to take the course at their own pace, and it will save the college and student money.)

Your primary objective for this paper will be to make a well-informed, carefully considered contribution to an on-going conversation or debate about an important topic. Your audience for this essay is comprised of scholars who are interested in your topic and who may be aware of the important texts, thinkers, and arguments frequently cited within your chosen **conversation**. However, while your readers may be familiar with some of the more influential voices that you will cite, they will expect you to remind them of key words and statements. These academic readers like texts, and they respect well-read participants of the conversation, so you should use textual support as a way of establishing credibility as well.

Your academic readers, though, will not be reading your essay simply to “re-hear” authoritative voices; they want you to bring those voices into your **argument** ^¾ and they want you to prove that you have understood them ^¾ but they still expect *your* voice to predominate. So you must have something definite to contribute, even if it is only a revision, qualification, or correction of an existing belief or idea.

Examples of essay topics: Prison reform, Social Justice Issues, Social media is bad for us, Vocational School vs. College, is Tipping Right?, Organ sales benefit lives, and etc.

DO NOT WRITE ABOUT: Religion, Abortion, Anti-Evolution, Anit-Vaccinations, and Gun-Control.

Remember that academic readers like a calm and methodical consideration of ideas; making an **argument** is not the same thing as being argumentative. Even though you may criticize another scholar's position, your readers will not respond favorably to a strident or sarcastic tone. Also, as before, keep in mind that while your **evidence** provides the foundation for your work, you need to keep your voice and your thinking front-and-center.

Manuscript Notes: This essay should be 5 to 8 double-spaced pages and calls for **MLA documentation**; you must include a “Works Cited” list at the end of your essay. Additionally, you must use and refute a counterargument. When you quote key phrases or clauses from your text(s), you must provide parenthetical documentation. Follow the guidelines in your handbook.

Option #2: Satire Essay

In the vein of Jonathon Swift's “A Modest Proposal,” you have the option of writing a satirical argumentative essay. You might want to extend Swift's argument or even come up with a ridiculous stance on a hot topic subject of your own(all ideas have to be cleared with me before you start writing). This satirical essay must be cited, logical, and convincing. Respect your fellow classmates; your satirical essay can't be hateful or insensitive.

Ex. Bringing back debtors prison for people who don't pay back student loans

Execution T.V.

Requirements:

- 4-8 pages(@ least 5 full pages)
- Need a Counterargument and Refutation.
- MLA format/Works Cited
- You should be using 3 sources (1 website + 2 academic articles/peer-reviewed articles)

Chapter 4: Research Essay is shared under a [not declared](#) license and was authored, remixed, and/or curated by LibreTexts.

While reading the articles, keep these questions/ideas in mind:

- What is the argument that the author is making? Do you agree/disagree? Why?
- What kind of evidence does the author use? Is it well-supported?
- Is consumerism good or bad?
- Is the evidence convincing?
- Does the author use a counterargument and refutation? Is it strong and convincing? What could you have done differently to make the argument stronger?

Chapter 5: Scholarships

College Transfer Essay Or Scholarship Essay Assignments

In this essay, I'd like for you to begin researching Transfer Colleges or College Scholarships.

Our essay will be an argument, where you will be starting your research on transfer institutions, or scholarships. This is an important essay, as it will help you start research on a transfer college, and it will help you discover reasons why you'd like to transfer to that college. You will be creating an argument that you should be accepted to this school and why/deserve a particular scholarship and why. Use your prior knowledge, life experience, and academic experience to prove why you should be admitted.

: Either Essay Option is acceptable: Scholarship Essay/Transfer Essay.

Thesis

Topic +Opinion + Reasons Why=

Identify College + Why You should Go=

Ever since Doctor Benihoff saved my life, I knew that it was my destiny to become a Doctor and save others, which is why I'd like to go to UCLA and study directly under Dr. Benthoff.

Essay Prompt: Please write a 3-5 page essay that addresses your reasons for transferring and the objectives you hope to achieve OR a 3-5 page paper that argues why you deserve a particular scholarship.

Transfer Essay Map Breakdown:

1. **Introduce Yourself. Use a Story about your first experience with this field; etc.**
2. **What are your core values (which part of you is suffering in your current school environment?)**
 1. Essentially, you should be asking yourself the real reason you thought of transferring in the first place. Do you feel out of place at your current school? Do you feel like you're not being challenged mentally, or something else entirely? [This full list of feelings and needs that might not be being met at your current school](#)
2. 1. [Links to an external site.](#) can be helpful.
3. **Explain why you chose your transfer university**
 1. explaining why you chose your current school in the first place. Did it have a program you liked, a professor, a specific major? Was its location perfect for what you wanted to study? Whatever your reason was, elaborate on it here
4. **What's your goal? What do you want to do (in the future)?**
 1. Do you have a particular passion, dream job, or vision for your future? Whatever it is, now's the time that you would get into it.
 2. And before you say that you don't have a specific "dream" quite yet, that's fine! If there's a particular passion you have or a job that you're most interested in at the moment, use that. Try and create a narrative around it that ties in with the rest of your essay.
5. Outline how your prospective school will help you fulfill your goals
6. Close (Sign off)!
 1. 1. Briefly explaining how their experiences (even the not-so-happy ones) made them who they are, and help them grew
 2. Further elaborating on how their prospective school could help fulfill their dream
 3. Describing how their prospective college could be a new "home" for them

Final Draft Essay Requirements:

- Proper MLA Format
